## Phillis Wheatley In The Black American Beginnings:

Phillis Wheatley in the Black American Beginnings William Henry Robinson, 1975 African American Authors, 1745-1945 Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson's Our Nig in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies. The volume concludes with a selected general bibliography African American Lives Henry Louis Gates Jr., Evelyn Brooks Higginbotham, 2004-04-29 African American Lives offers up to date authoritative biographies of some 600 noteworthy African Americans These 1 000 3 000 word biographies selected from over five thousand entries in the forthcoming eight volume African American National Biography illuminate African American history through the immediacy of individual experience From Esteban the earliest known African to set foot in North America in 1528 right up to the continuing careers of Venus and Serena Williams these stories of the renowned and the near forgotten give us a new view of American history Our past is revealed from personal perspectives that in turn inspire move entertain and even infuriate the reader Subjects include slaves and abolitionists writers politicians and business people musicians and dancers artists and athletes victims of injustice and the lawyers journalists and civil rights leaders who gave them a voice Their experiences and accomplishments combine to expose the complexity of race as an overriding issue in America's past and present African American Lives features frequent cross references among related entries over 300 illustrations and a general index supplemented by indexes organized by chronology occupation or area of renown and winners of particular honors such as the Spingarn Medal Nobel Prize and Pulitzer Prize The Black Presence in the Era of the American Revolution Sidney Kaplan, Emma Nogrady Kaplan, 1989 This carefully researched history details the military political economic and cultural experience of black people during the era of the American Revolution Beginning with Crispus Attucks the first man killed in the Revolutionary action the authors recount a series of fascinating personal histories. The text is highlighted by excerpts form letters journals newspaper articles and other documents as well as by poems broadsides and passages from magazines of the day The book is a revised

and expanded edition of the authors classic catalog that accompanied a pioneering exhibition mounted in 1973 by the National Portrait Gallery Jupiter Hammon and the Biblical Beginnings of African-American Literature Sondra O'Neale, 1993-05 Not often does a literary analysis offer clarification and insight of prevailing historical analysis But that is precisely what O Neale's analysis does Cynthia Hamilton Director African and Afro American Studies University of Rhode **Ravishing Tradition** Daniel Cottom, 2019-06-07 Though central to contemporary debates over identity politics and culture the concept of tradition often remains unexamined In a series of readings that transgress cultural and disciplinary boundaries Daniel Cottom subjects this concept to close scrutiny He calls into question conventional accounts of tradition with their reliance on standard oppositions between dogma and reason animality and humanity community and society religion and science and modernity and its predecessors Tradition as Cottom envisions it is a complex of cultural forces that moves divides and undoes those it touches it ravishes is ravished and is centrally etched with acts of ravishment Engaging writers from William Shakespeare to John Ashbery and from Phillis Wheatley to Antonin Artaud Cottom examines literary history within the contexts of war rape and slavery education technology and sexuality repetition imitation stereotypy and travesty censorship grief and ecstasy He also evaluates the work of various theorists who address guestions of tradition such as Sigmund Freud Walter Benjamin Jacques Derrida and Adrienne Rich Cottom draws on works in social and cultural history as well as on literary texts from different eras nations and genres At once using and critiquing contemporary literary and cultural theory this eloquent book shows why tradition continues to be of compelling interest and importance

Spiritual Interrogations Katherine Clay Bassard,1999-01-18 The late eighteenth century witnessed an influx of black women to the slave trading ports of the American Northeast The formation of an early African American community bound together by shared experiences and spiritual values owed much to these women s voices The significance of their writings would be profound for all African Americans sense of their own identity as a people Katherine Clay Bassard's book is the first detailed account of pre Emancipation writings from the period of 1760 to 1863 in light of a developing African American religious culture and emerging free black communities Her study which examines the relationship among race culture and community focuses on four women the poet Phillis Wheatley and poet and essayist Ann Plato both Congregationalists and the itinerant preacher Jarena Lee and Shaker eldress Rebecca Cox Jackson who with Lee had connections with African Methodism Together these women drew on what Bassard calls a spirituals matrix which transformed existing literary genres to accommodate the spiritual music and sacred rituals tied to the African diaspora Bassard's important illumination of these writers resurrects their path breaking work They were cocreators with all black women who followed of African American intellectual life Phillis Wheatley's Poetics of Liberation John C. Shields, 2008 In this volume John C Shields demonstrates that much of the negative response to Phillis Wheatley's writings has been based on false assumptions and myths about her and her work Much of this criticism began more than a century ago and has been passed on without dissent by generations of

readers Here Shields sets a course for Wheatley scholars that will redefine the direction of future writing about her Shields provides new readings for a great many of her poems He shows that Wheatley's writing was deeply imbedded in several literary traditions demonstrating that her work is the result of an African inheritance a complex relationship with a Congregationalist religious heritage and an intense involvement with classical literature Read closely Wheatley's works show she deserves credit for creating a liberationist aesthetic the full implications of which are still to be worked out From publisher s description African American Writers: June Jordan to Richard Wright Valerie Smith, 2001 Contains biographical and critical essays on the work of important African American writers **Encyclopedia of American** Literature Manly, Inc., 2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S Selected Black American, African, and Caribbean Authors James Allen Page, Jae Min Roh,1985 The African American Encyclopedia Michael Warren Williams, 1993 Deals extensively with the African American experience in the United States from the very beginning up to the present day with an in depth examination of the history and contributions of a people who want to be recognized The African-American Mosaic Library of Congress, Beverly W.
