Philosophers Ancient And Modern:

Pyrrhonism in Ancient, Modern, and Contemporary Philosophy Diego E. Machuca, 2011-07-17 In recent years there has been renewed interest in Pyrrhonism among both philosophers and historians of philosophy This skeptical tradition is complex and multifaceted since the Pyrrhonian arguments have been put into the service of different enterprises or been approached in relation to interests which are quite distinct The diversity of conceptions and uses of Pyrrhonism accounts for the diversity of the challenges it is deemed to pose and of the attempts to meet them The present volume brings together twelve essays by leading specialists which explore the history and philosophical significance of this form of skepticism they discuss some thorny questions concerning ancient Pyrrhonism explore its influence on certain modern thinkers and examine it in relation to contemporary analytic philosophy The essays combine historical and exegetical analysis with an assessment of the philosophical merits of the Pyrrhonian outlook with the aim of understanding it both in its historical context and in connection with contemporary concerns This volume the first entirely devoted to a detailed study of the Pyrrhonian tradition is intended to open up new exegetical and philosophical perspectives on Pyrrhonism and to motivate further examination of certain difficult issues It will be a valuable resource for scholars of ancient philosophy historians of modern philosophy and epistemologists as well as for graduate students interested in skepticism

Appendix II: Alcibiades II. Eryxias** Plato,1892 **Mexican Philosophy in the 20th Century** Carlos Alberto Sánchez,Robert Eli Sanchez (Jr.),2017 Sánchez and Sanchez have selected edited translated and introduced some of the most influential texts in Mexican philosophy which constitute a unique and robust tradition that will challenge and complicate traditional conceptions of philosophy The texts collected here are organized chronologically and represent a period of Mexican thought and culture that emerged from the Mexican Revolution of 1910 and which culminated in la filosofía de lo mexicano the philosophy of Mexicanness Though the selections reflect on a variety of philosophical questions collectively they represent a growing tendency to take seriously the question of Mexican national identity as a philosophical question especially given the complexities of Mexico's indigenous and European ancestries a history of colonialism and a growing dependency on foreign money and culture More than an attempt to describe the national character however the texts gathered here represent an optimistic period in Mexican philosophy that aimed to affirm Mexican culture and philosophy as a valuable if not urgent contribution to universal culture
