*Philosophical Discourse Concerning Speech, Together with A Discourse Written by a Learned Friar* Géraud de  
Cordemoy, 1974 *Constantin Carathéodory* Maria Georgiadou, 2013-12-01 With breathtaking detail Maria Georgiadou  
sheds light on the work and life of Constantin Carathéodory who until now has been ignored by historians In her thought  
provoking book Georgiadou maps out the mathematician's oeuvre life and turbulent historical surroundings Descending from  
the Greek elite of Constantinople Carathéodory graduated from the military school of Brussels became engineer at the Assiout  
dam in Egypt and finally dedicated a lifetime to mathematics and education He significantly contributed to calculus of  
variations the theory of point set measure the theory of functions of a real variable pdes and complex function theory An  
exciting and well written biography once started difficult to put down *Philosophical Discourse Concerning Speech* Géraud  
de Cordemoy, 1668 **Dao Companion to Chinese Buddhist Philosophy** Youru Wang, Sandra A. Wawrytko, 2019-01-31  
Too often Buddhism has been subjected to the Procrustean box of western thought whereby it is stretched to fit fixed  
categories or had essential aspects lopped off to accommodate vastly different cultural norms and aims After several  
generations of scholarly discussion in English speaking communities it is time to move to the next hermeneutical stage  
Buddhist philosophy must be liberated from the confines of a quasi religious stereotype and judged on its own merits Hence  
this work will approach Chinese Buddhism as a philosophical tradition in its own right not as an historical afterthought nor  
as an occasion for comparative discussions that assume the west alone sets the standards for or is the origin of philosophy  
and its methodologies Viewed within their own context Chinese Buddhist philosophers have much to contribute to a wide  
range of philosophical concerns including metaphysics epistemology ethics philosophy of language philosophy of mind and  
philosophy of religion even though Western divisions of philosophy may not exhaust the rich contents of Chinese Buddhist
