improve public library programming for all ages Yes it is this book demonstrates how In their roles as community centers public libraries offer many innovative and appealing programs but under current budget cuts library resources are stretched thin With slashed budgets and limited staff hours what can libraries do to best serve their publics This how to guide provides strategies for streamlining library programming in public libraries while simultaneously maintaining or even improving quality delivery The wide variety of principles and techniques described can be applied on a selective basis to libraries of all sizes Based upon the author s own extensive experience as well as that of colleagues in other library systems this book provides readers with a practical step by step approach to maximizing resources and minimizing costs of programming without sacrificing quality as well as insider tips and examples from the field that will help them to avoid known pitfalls

The Years That Matter Most Paul Tough,2019-09-12 What has gone wrong in our universities And how do we make it right When Amy applied to university she thought she d be judged purely on her merits But she never thought that her family background would have as much impact on her future as her grades When KiKi arrived at university she knew she could be the only black woman in her class But she didn t know how out of place she would feel nor how unwelcoming her peers would be When Orry graduated from university he was told he d probably land a six figure salary But he wasn t told he d end up barely scraping a living wage struggling to feed his children Drawing on the stories of hundreds of American students The Years That Matters Most is a revelatory account of a university system in crisis Paul Tough bestselling author of How Children Succeed exposes a world where small town colleges go bust while the most prestigious raise billions every year where overstretched admissions officers are forced to pick rich candidates over smart ones where black and working class students are left to sink or swim on uncaring campuses Along the way he uncovers cutting edge research from the academics leading the way to a new kind of university one where students succeed not because of their background but because of the quality of their minds The result is a call to arms for universities that work for everyone and a manual for how we can make it happen
