**The complete science of Stress Management** Prof. Vishnu Narayan

Saxena, Prof. Pooja Saxena, 2021-09-13 As servant stress anger or fear is very good stress can be a very good management tool if you can utilize the energy of your stress or anger but as a master Stress anger or fear is very harmful and suicidal Without developing a proper understanding about stress on scientific ground you cannot manage your stress Only after understand the whole mechanism of stress fear or anger you can control your stress and can utilize the energy of your stress in desired direction This is not only the book which gives you a hypothetical approach about stress but this book is quite practical and very helpful in developing the practical concept about stress how to control your stress and how to utilize the energy of your stress on scientific and practical ground Without developing a proper understanding about any emotion you cannot get a control over it Again it will be sheer foolishness to follow any method or any path without knowing it on theoretical ground because the brain of young generation is trained in such a way that without satisfying on theoretical ground no one can put their 100% effort to follow any method Again on theoretical or hypothetical ground things can be proved intellectually but until and unless you will not practice them you cannot get a taste of it or you cannot feel the result of any method until you will not practice it So in my opinion theory and practice are two legs and by proper coordination of two legs one can have to complete their journey First satisfy your brain on theoretical ground and then feel it practical by doing practice So this book will take you to the journey of peace and love with scientific approach and very helpful in dropping your emotions like anger fear and stress Only by developing a proper understanding of anger you can win your anger or stress If

you really want to drop your anger or stress then the only way to understand the anger or stress If you run away from stress then stress will never leave you Only by developing the proper understanding about stress anger and fear you can drop it If you want to drop your stress then you need to know the answer of following questions first What is Stress Need Stress How stress changes our behavior our physiology our psychology our hormones level and neural activity of our mind How you can transform the electrochemical energy of stress or anger What are the different domains of stress or anger     **The Irish Crisis of 1879-80** Dublin Mansion House Committee for the Relief of Distress in Ireland,1881     *The Doctor's Guide to Instant Stress Relief* Ronald G.
