Artificially Intelligent David Eliot,2025-10-21 The story of AI isn't finished yet The question is how will you be part of it With the unprecedented adoption of artificial intelligence and its far reaching implications people everywhere are witnessing the world change around them Artificially Intelligent answers today's most pressing questions about AI from the fundamental to the futuristic offering readers a new informed worldview In an age of unparalleled innovation and change artificial intelligence has become the heart of our fears discussions and debates Thus AI researcher and award winner David Eliot takes readers on a journey through the key moments and decisions that have shaped its creation and our world A socially driven history the book explores its technical breakthroughs and the social forces that made them possible But this book isn't just about the past it's about you Artificially Intelligent invites readers to find their place in the story of AI to understand its impact on their lives and to decide what kind of future they want to help create Artificially Intelligent tells the story of the technology the way it was meant to be told not as an exhaustive retelling of history nor as a prophecy of doom and gloom but as a human story that is not yet complete

Super Founders Ali Tamaseb,2021-05-18 Using a data driven approach Super Founders is a must read Eric Yuan founder and CEO Zoom examination of what differentiates billion dollar startups from the rest Ali Tamaseb has spent thousands of hours manually amassing what may be the largest dataset ever collected on startups comparing billion dollar startups with those that failed to become one 30 000 data points on nearly every factor number of competitors market size the founder's age his or her university's ranking quality of investors fundraising time and many many more And what he found looked far different than expected Just to mention a few Most unicorn founders had no industry experience There's no disadvantage to being a solo founder or to being a non technical CEO Less than 15% went through any kind of accelerator program Over half had strong competitors when starting being first to market with an idea does not actually matter You will also hear the stories of the early days of billion dollar startups first hand The book includes exclusive interviews with the founders investors of Zoom Instacart PayPal Nest Github Flatiron Health Kite Pharma Facebook Stripe Airbnb YouTube LinkedIn Lyft DoorDash Coinbase and Square venture capital investors like Elad Gil Peter Thiel Alfred Lin

from Sequoia Capital and Keith Rabois of Founders Fund as well as previously untold stories about the early days of ByteDance TikTok WhatsApp Dropbox Discord DiDi Flipkart Instagram Careem Peloton and SpaceX Packed with counterintuitive insights and inside stories from people who have built massively successful companies Super Founders is a paradigm shifting and actionable guide for entrepreneurs investors and anyone interested in what makes a startup successful

Man Down Matt Rudd,2020-09-10 The most honest most revealing and funniest exploration of male mental health I have ever read Adam Kay Matt Rudd may have written the most important book in a generation Idle Society On the surface men today don t have much to complain about At work they still get paid more than women for doing the same jobs At home they still shirk most of the unpaid labour Putting the bins out does not count Beneath the surface it s a different story An alarming number of men end up anxious exhausted depressed and very reluctant to admit they are Even if they do everything that s expected of them in work life and fatherhood genuine happiness is still elusive By midlife their levels of stress are higher and their levels of wellbeing are lower and work life balance turns out to be just a cruel illusion The evidence is clear and ironic the system set up by men for men doesn t work for men either It is making none of us happy In Man Down Matt Rudd takes the long view on this perplexing paradox Drawing on stories from his own life and the varied lives of the other men he has interviewed he goes back to the beginning to consider what makes the modern man how the seeds of midlife misery are sown in the school playground and cultivated through adolescence and into adulthood By turns compassionate and provocative Man Down asks the important question is midlife unhappiness inevitable Spoiler alert it isn t

Left to Their Own Devices Julie M. Albright,2019-04-16 A sociologist explores the many ways that digital natives

interaction with technology has changed their relationship with people places jobs and other stabilizing structures and created a new way of life that is at odds with the American Dream of past generations Digital natives are hacking the American Dream Young people brought up with the Internet smartphones and social media are quickly rendering old habits values behaviors and norms a distant memory creating the greatest generation gap in history In this eye opening book digital sociologist Julie M Albright looks at the many ways in which younger people facilitated by technology are coming untethered from traditional aspirations and ideals and asks What are the effects of being disconnected from traditional stabilizing social structures like churches marriage political parties and long term employment What does it mean to be human when one s ties to people places jobs and societal institutions are weakened or broken displaced by digital hyper connectivity Albright sees both positives and negatives On the one hand mobile connectivity has given digital nomads the unprecedented opportunity to work or live anywhere But new threats to well being are emerging including increased isolation anxiety and loneliness decreased physical exercise ephemeral relationships fragmented attention spans and detachment from the calm of nature In this time of rapid global technologically driven change this book offers fresh insights into the unintended societal and psychological implications of lives exclusively lived in a digital world *The Age of Surveillance Capitalism* Shoshana Zuboff,2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn t at least familiarised themselves with Zuboff s central ideas Zadie Smith The Guardian The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us The heady optimism of the Internet s early days is gone Technologies that were meant to liberate us have deepened inequality and stoked divisions Tech companies gather our information online and sell it to the highest bidder whether government or retailer Profits now depend not only on predicting our behaviour but modifying it too How will this fusion of capitalism and the digital shape our values and define our future Shoshana Zuboff shows that we are at a crossroads We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits The Age of Surveillance Capitalism is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight As it explores this new capitalism s impact on society politics business and technology it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization Most critically it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves **Meyer Brothers Druggist** ,1896

Popular Science ,2008 *Build* Tony Fadell,2022-05-03 New York Times Wall Street Journal and USAToday Bestseller

for May 2022 Tony Fadell led the teams that created the iPod iPhone and Nest Learning Thermostat and learned enough in 30 years in Silicon Valley about leadership design startups Apple Google decision making mentorship devastating failure and unbelievable success to fill an encyclopedia So that's what this book is An advice encyclopedia A mentor in a box Written for anyone who wants to grow at work from young grads navigating their first jobs to CEOs deciding whether to sell their company Build is full of personal stories practical advice and fascinating insights into some of the most impactful products and people of the 20th century Each quick 5-20 page entry builds on the previous one charting Tony's personal journey from a product designer to a leader from a startup founder to an executive to a mentor Tony uses examples that are instantly captivating like the process of building the very first iPod and iPhone Every chapter is designed to help readers with a problem they're facing right now how to get funding for their startup whether to quit their job or not or just how to deal with the jerk in the next cubicle Tony forged his path to success alongside mentors like Steve Jobs and Bill Campbell icons of Silicon Valley who succeeded time and time again But Tony doesn't follow the Silicon Valley credo that you have to reinvent everything from scratch to make something great His advice is unorthodox because it's old school Because Tony's learned that human nature doesn't change You don't have to reinvent how you lead and manage just what you make And Tony's ready to help everyone make things worth making *American Poultry Journal* ,1948 **Country Life in America** ,1916
