Remote Jobs Viral Challenge This Month:

Management with Online Study Tools 12 Months Danny Samson, Timothy Donnet, Richard L. Daft, 2017-10-25
Samson Daft Donnet's Management is a robust foundation text providing a balance of broad theoretical content with an engaging easy to understand writing style. It covers the four key management functions: planning, organising, leading, and controlling, conveying to students the elements of a manager's working day. Along with current management theory and practice, the authors integrate coverage of innovation, entrepreneurship, agile workplaces, social media, and new technology throughout. This sixth edition features a new author on the team and contains updates to content based on recent research. Real life local and international examples showcase the ongoing changes in the management world. Focusing on a skills approach, they bring concepts to life for students, supporting motivation, confidence, and mastery. Each part concludes with a contemporary continuing case study focusing on car company Toyota as it faces managerial challenges and opportunities in the region.

Law Librarianship Practice Ellyssa Kroski, 2025-07-10
This ground-breaking new legal librarianship book serves as an invaluable resource for practicing law librarians who want to be at the forefront of information technology and law libraries. Law librarianship is a constantly evolving field that has seen major shifts in practice over the past several years, including the post-pandemic trend towards remote and hybrid work, the increased prominence of virtual services, the outsourcing of library staff, burgeoning cybersecurity risks, and the advent of generative AI. Law librarians have adroitly adapted to all of these changes and have once again proven their resilience. Law Librarianship Practice is a cutting-edge book that provides insights into the latest emerging trends and technologies in academic, government, and law firm librarianship. This book offers guidance from forward-thinking library leaders on how they are tackling the challenges of law librarianship today, including managing remote workforces, negotiating with vendors, navigating outsourcing services, planning for emergencies, riding out law firm mergers, succession planning, and more. Experts working in the field provide practical applications of new technologies and opportunities, such as how librarians are conducting AI-informed competitive intelligence, using big data for decision-making, and what's happening in artificial intelligence. The book also covers innovative initiatives in the areas of diversity, equity, and inclusion, Access to Justice, and more. Law Librarianship Practice serves as a comprehensive manual of modern-day law library practices, providing invaluable resources for law librarians. Readers will gain inspiration from nearly thirty chapters contributed by distinguished academic, government, and law firm librarians, as well as library consultants who share their experience along with a combination of researched data, contract excerpts, surveys, and other real-world intelligence. Divided into three segments, readers will be led through twenty-eight chapters in the areas of Law Library Management, Law Library Technologies, and Law Library Challenges and Opportunities.

Can 100% remote work attract more qualified candidates? Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren t any specific regulations regarding remote work in Germany yet In general remote work provides workers e g more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything s going remotely companies have become an easier target
