Web3: The Insights You Need from Harvard Business Review Harvard Business

Review, Andrew McAfee, Jeff John Roberts, Reid Blackman, Molly White, 2023-03-28 Web3 may be the next big disrupter in business. Don't be caught unprepared. Blockchain and crypto aren't just for speculators anymore; they're the backbone of the rising decentralized internet. Web3 has the potential to rewrite the past decade's rules: monopolies may be shattered, the web could be remade, and an entirely new breed of products and services will likely emerge. Where does your business fit in Web3? The Insights You Need from Harvard Business Review will show you how today's most innovative organizations are choosing Web3, experimenting with their brands, evaluating their risks, and preparing to win in the newer, better internet age. Business is changing. Will you adapt or be left behind? Get up to speed and deepen your understanding of the topics that are shaping your company's future with the Insights You Need from Harvard Business Review series. Featuring HBR's smartest thinking on fast-moving issues: blockchain, cybersecurity, AI, and more, each book provides the foundational introduction and practical case studies your organization needs to compete today and collects the best research, interviews, and analysis to get it ready for tomorrow. You can't afford to ignore how these issues will transform the landscape of business and society. The Insights You Need series will help you grasp these critical ideas and prepare you and your company for the future. Beyond Virtual Production Tully Barnett, Jason Bevan, Cameron Mackness, Zoë Wallin, 2025-01-08 Beyond Virtual Production brings together a range of creative practice research projects that have been undertaken in The Void, an early adopter university-based virtual production studio at Flinders University in South Australia. From a cross-disciplinary short virtual production film to a VR simulation of the last 100 seconds of life on earth to the live performance of the virtual band Big Sands to augmented and extended reality to archaeological projects, this collection captures the potential applications of virtual production technology and provides a framework for cross-disciplinary work and industry collaborations both in a university context and beyond. It offers insight into the development of virtual production courses and encompasses research into theories of performance, liveness, methods for co-creation, gender in virtual production, careers, and object digitization and its representation, while highlighting significant pathways of industry partnerships alongside experimental art practices. Creative technology and interdisciplinary practitioners, researchers, students, and teachers will find inspiration and practical guidance in these chapters.
