lesson planning implementation and assessment At the end of each chapter discussion questions and suggestions for hands on learning activities are provided Preparing pre service teachers in the whys and hows of structured literacy instruction and intervention allows them to teach reading effectively according to current understanding of the science of reading Teachers prepared with this knowledge base will be able to use the resources in this book to create additional materials and adapt materials from any literacy program to individualize instruction according to the needs of their students This book will be a valuable addition to any college level general or special education reading methods course The instructional routines taught in the book are designed to be accessible to students with and without disabilities Effective reading instruction such as the kind described in this book increases educational equity for students of color and English learners Suggestions for differentiating instruction based upon individual student needs are provided *Sessional Papers - Legislature of the Province of Ontario* Ontario.
