Software Engineering, Artificial Intelligence, Networking and Parallel/Distributed Computing Roger Lee, 2022-11-18 This book presents scientific results of the 23rd ACIS International Summer Virtual Conference on Software Engineering Artificial Intelligence Networking and Parallel Distributed Computing SNPD2022 Summer which was held on July 4-6 2022 at Kyoto City Japan The aim of this conference was to bring together researchers and scientists businessmen and entrepreneurs teachers engineers computer users and students to discuss the numerous fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way Research results about all aspects theory applications and tools of computer and information science and to discuss the practical challenges encountered along the way and the solutions adopted to solve them The conference organizers selected the best papers from those papers accepted for presentation at the

workshop The papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review From this second round of review 15 of most promising papers are then published in this Springer SCI book and not the conference proceedings We impatiently await the important contributions that we know these authors will bring to the field of computer and information science

Beyond Virtual Production Tully Barnett,Jason Bevan,Cameron Mackness,Zoë Wallin,2025-01-08 Beyond Virtual Production brings together a range of creative practice research projects that have been undertaken in The Void an early adopter university based virtual production studio at Flinders University in South Australia From a cross disciplinary short virtual production film to a VR simulation of the last 100 seconds of life of earth to the live performance of the virtual band Big Sands to augmented and extended reality to archaeological projects this collection captures the potential applications of virtual production technology and provides a framework for cross disciplinary work and industry collaborations both in a university context and beyond It offers insight into the development of virtual production courses and encompasses research into theories of performance liveness methods for co creation gender in virtual production careers and object digitization and its representation while highlighting significant pathways of industry partnerships alongside experimental art practices Creative technology and interdisciplinary practitioners researchers students and teachers will find inspiration and practical guidance in these chapters The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Metaverse Dilemma Chitra Krishnan,Abhishek Behl,Snigdha Dash,Prashant Dev Yadav,2024-12-02 The Metaverse Dilemma explores a balanced viewpoint of the metaverse from both a theoretical and practical mindset examining the challenges and opportunities faced when adopting and implementing the metaverse in business and everyday scenarios

Regulating the Metaverse Ignas Kalpokas,Julija Kalpokienė,2023-01-26 The metaverse seems to be on everybody s lips and yet very few people can actually explain what it means or why it is important This book aims to fill the gap from an interdisciplinary perspective informed by law and media and communications studies Going beyond the optimism emanating from technology companies and venture capitalists the authors critically evaluate the antecedents and the building blocks of the metaverse the design and regulatory challenges that need to be solved and commercial opportunities that are yet to be fully realised While the metaverse is poised to open new possibilities and perspectives it will also be a dangerous place one ripe with threats ranging from disinformation to intellectual property theft to sexual harassment Hence the book offers a useful guide to the legal and political governance issues ahead while also contextualising them within the broader domain of governance and regulation of digital technologies
