Reading The Gospels With Gregory The Great:

Reading the Gospels with Gregory the Great Pope Gregory I, 2002-09 Gregory the Great c 560 604 C E occupies a key position in the development of Christian commentary on the Scriptures Pope and political leader during a chaotic era of transition in the history of Western Europe he may be best known for his famous encounter with English children in the Roman slave market and his commissioning of St Augustine of Canterbury s subsequent mission to England Gregory s Homilies on the Gospels were first preached in 591 92 early in his papacy and were very popular for their vigorous and engaging style Using simple words to preach to the nobles and common people of Rome Gregory employs metaphors analogies stories and images to answer basic questions of faith His exegetical interpretation may often seem simplistic to the modern reader but shows his dependence on earlier patristic tradition and reveals his pastoral heart Book cover

Religious Women in Early Carolingian Francia Felice Lifshitz, 2014-05-01 Religious Women in Early Carolingian Francia a groundbreaking study of the intellectual and monastic culture of the Main Valley during the eighth century looks closely at a group of manuscripts associated with some of the best known personalities of the European Middle Ages including Boniface of Mainz and his beloved abbess Leoba of Tauberbischofsheim This is the first study of these Anglo Saxon missionaries to Germany to delve into the details of their lives by studying the manuscripts that were produced in their scriptoria and used in their communities The author explores how one group of religious women helped to shape the culture of medieval Europe through the texts they wrote and copied as well as through their editorial interventions Using compelling manuscript evidence she argues that the content of the women s books was overwhelmingly gender egalitarian and frequently feminist i e resistant to patriarchal ideas This intriguing book provides unprecedented glimpses into the feminist consciousness of the women s and mixed sex communities that flourished in the early Middle Ages **The Hidden Power of the Gospels** Alexander Shaia, PhD, Michelle Gaugy, 2010-02-02 In the tradition of Thomas Moore s The Care of the Soul and Don Miguel Ruiz s The Four Agreements Alexander Shaia s The Hidden Power of the Gospels reveals how the recurring cycles of change loss enlightenment and maturation are illuminated by the Bible s four gospels Combining ancient Christian traditions anthropology and modern psychology he reveals how each gospel focuses on a vital spiritual question Matthew begins with How do we face change Mark faces the hard question of How do we move through suffering John stirs and elevates the soul as he asks How do we receive joy And Luke moves forward on the practical journey as he inquires How do we mature in service By using this lens the gospels become practical guides for creating faith filled lives and a map for our never ending spiritual journey *Reading Gender* Felice Lifshitz, 2023-04-25 This collection brings together twelve essays published between 1988 and 2014 two of which are here translated into English from respectively their original French or German All the essays use gender as the main category of analysis whether of late ancient or early medieval texts or of modern medievalist films The historical studies of medieval Europe emphasize the use of manuscript level evidence that is

actual sources from the period in question arguably this approach provides a more accurate understanding of the period than does work done on the basis of printed and edited sources Furthermore many of the manuscript based essays specifically exploit liturgical or liturgy adjacent materials this is an area of research and a type of manuscript that has rarely been approached through a gendered lens Meanwhile the cinematic medievalism essays focus on the processes of remediation and adaptation searching specifically for points at which filmmaking teams diverged from their sources as evidence for the main goals of the films while also attending to production contexts and to reception The juxtaposition in a single collection of scholarship on medieval manuscripts and modern movies illustrates how period specialists can contribute to conversations in the field of historical film studies The book will be of interest to historians of women gender Christian liturgy medieval Europe medievalism and historical film CS 1110
