Identities, Borderscapes, Orders Benjamin Tallis, 2023-02-06 This book provides a pre history of Russia's war on Ukraine and Europe's relations to it illuminating the deep roots of the EU's neighbourhood crisis as well as the migration crises the Union created in the last decade To do so the book employs a new and innovative framework that allows for a comprehensive yet nuanced analysis of borders and a more cogent interpretation of their socio political consequences Drawing on interdisciplinary scholarship the book analytically examines the key common elements of borderscapes and links them in related arrays to allow for nuanced evaluation of both their particular and cumulative effects as well as interpretation of their overall consequences particularly for issues of identities and orders The book offers a significant conceptual and theoretical advance providing a transferable conceptualization of borderscapes to guide research analysis and interpretation Drawing on the author's experience in policy practice and academia it also makes a methodological contribution by pushing the boundaries of reflexivity in interpretive International Relations IR research Analyzing three main sites in Central and Eastern Europe CEE the book challenges conventional critical wisdom on EU bordering in the Schengen zone at its external frontiers and in its Eastern neighborhood In so doing it sheds new light on the politics of post communist transitions as well as the contemporary politics of CEE It also shows how EU bordering and its relations to identities and orders created great benefits for many Europeans but also hindered the lives of many others and became self defeating This book is a must read for scholars students and policy makers interested in a better understanding of Critical Border Studies CBS in particular and International Relations in general It will also appeal to anyone interested in CEE or wishing to get a deeper understanding of Russia's war and the fight for Europe's future

Contested Knowledges Esha Shah, Rutgerd Boelens, Bert Bruins, 2019-05-20 Water acquisition storage allocation and distribution are intensely contested in our society whether for instance such issues pertain to a conflict between upstream and downstream farmers located on a small stream or to a large dam located on the border of two nations Water conflicts are mostly studied as disputes around access to water resources or the formulation of water laws and governance rules However explicitly or not water conflicts nearly always also involve disputes among different philosophical views The contributions to this edited volume have looked at the politics of contested knowledge as manifested in the conceptualisation design development implementation and governance of large dams and mega hydraulic infrastructure projects in various parts of the world The special issue has explored the following core questions Which philosophies and claims on mega hydraulic projects are encountered and how are they shaped validated negotiated and contested in concrete contexts Whose knowledge counts and whose knowledge is downplayed in water development conflict situations and how have different epistemic communities and cultural political identities shaped practices of design planning and construction of dams and mega hydraulic projects The contributions have also scrutinised how these epistemic communities interactively shape norms rules beliefs and values about water problems and solutions

including notions of justice citizenship and progress that are subsequently to become embedded in material artefacts

Baptized in PCBs Ellen Griffith Spears, 2014-04-07 In the mid 1990s residents of Anniston Alabama began a legal fight against the agrochemical company Monsanto over the dumping of PCBs in the city's historically African American and white working class west side Simultaneously Anniston environmentalists sought to safely eliminate chemical weaponry that had been secretly stockpiled near the city during the Cold War In this probing work Ellen Griffith Spears offers a compelling narrative of Anniston's battles for environmental justice exposing how systemic racial and class inequalities reinforced during the Jim Crow era played out in these intense contemporary social movements Spears focuses attention on key figures who shaped Anniston from Monsanto's founders to white and African American activists to the ordinary Anniston residents whose lives and health were deeply affected by the town's military industrial history and the legacy of racism Situating the personal struggles and triumphs of Anniston residents within a larger national story of regulatory regimes and legal strategies that have affected toxic towns across America Spears unflinchingly explores the causes and implications of environmental inequalities showing how civil rights movement activism undergirded Anniston's campaigns for redemption and justice
