Problem Solving To Improve Classroom Learning:

Problem Solving to Improve Classroom Learning Richard A. Schmuck, Mark A. Chesler, Ronald Lippitt, 1966 Improving Classroom Learning with ICT Rosamund Sutherland, Susan Robertson, Peter John, 2008-11-21 *Improving Classroom Learning with ICT* examines the ways in which ICT can be used in the classroom to enhance teaching and learning in different settings and across different subjects Weaving together evidence of teachers and learners experiences of ICT the authors explain why the process of integrating ICT is not straightforward discuss whether hardware and infrastructure alone are sufficient to ensure full integration and exploitation of ICT investment emphasise the pivotal role that teachers play in supporting learning with ICT across the curriculum argue that teachers need a greater understanding of how to put ICT to use in teaching and learning highlight that out of school use of ICT has an impact on in school learning consider what kinds of professional development are most effective in supporting teachers to use technologies creatively and productively Case studies are used to illustrate key issues and to elaborate a range of theoretical ideas that can be used in the classroom This book will be of interest to all those concerned with maximising the benefits of ICT in the classroom **Improving Classroom**

How to Use Problem-based Learning in the Classroom Robert Delisle,Association for Supervision and Curriculum Development,1997 Engaging and motivating students especially the least motivated learners is a daily challenge But with the process of problem based learning PBL any teacher can create an exciting active classroom where students themselves eagerly build problem solving skills while learning the content necessary to apply them With problem based learning students work begins with an ill defined problem Key to this problem is how it explicitly links something important in students daily lives to the classroom This motivational feature is vital as students define the what where and how of resolving the problem situation Problem based learning may sound potentially chaotic and haphazard but it rests on the firm foundation of a teacher s work behind the scenes The teacher develops a problem long before students see it specifically choosing the skills and content the problem will emphasize and matching those to curriculum and standards Though a PBL problem will have no right answer the teacher structures the experience so that specific learning takes place as students generate the problem solving steps research issues and produce a final product The teacher guides without leading assists without directing *Teaching for Learning* Myron H.
