## **Religion and Social Problems**

Titus Hjelm,2011-01-21 Although students and scholars of social problems have often acknowledged the role of religion no thorough examinations of the relation between the two have emerged This volume fills this gap by providing a definitive work on the role of religion in assessing constructing and solving social problems Contributors chart the relation between religion and social problems exploring such case studies as the impact of religion on drugs and alcohol use among Muslims the rising importance that religion is given in social policy the role of the Orthodox and Catholic churches in tackling social problems in post communist East Europe and the contested role of religion in the national and international politics of contemporary Japan Religion and Social Problems is a broad and path breaking contribution to the fields of sociology of religion sociology of social problems and religious studies

## **Shifting Perspectives of Postcolonialism in Twenty-First-Century**

**Anglophone-Arab Fiction** Majed Alenezi,2022-09-09 Shifting Perspectives of Postcolonialism in Twenty First Century

Anglophone Arab Fiction explores the flourishing Anglophone Arab fiction after 9 11 Central to this expansion are the socio political changes in the aftermath of the 9 11 attacks not only on the international scene but also at the local level within the Arab Muslim world Paralleling this expansion is a shift from traditional postcolonial discourse toward Arab nation s internal issues Rather than echoing the outmoded writing back paradigm the Anglophone Arab writers have taken up specific social and political concerns through their writings and offer a trenchant commentary on issues of indigenous and international significance Moving away from postcolonial political awareness Anglophone Arab writers provide a critical perspective on some important contemporary issues facing the Arab nations like misuse of religious discourse sectarianism terrorism feminism class struggle political rights and democracy and the fragmentation of the Arab society *Religion and Modernity* Detlef Pollack, Gergely Rosta, 2017 This is not a book that provides a new integrated theory of religious change in modern societies but rather one that develops theoretical elements that contribute to the understanding of some contemporary religious developments Most of the approaches in sociology of religion are prone to emphasize either processes of religious decline or of religious upswing For example secularization theory usually includes a couple of relevant factors such as functional differentiation economic affluence or social equality in order to account for religious change However the result of such a theory s empirical analyses seems to be certain in advance namely that the social relevance of religion is decreasing In contrast the religious market model devised by sociologists of religion in the US is inclined to detect everywhere processes of religious upsurge *Religion and Modernity An International Comparison* avoids a purely theoretically based perspective on religious changes For this reason Detlef Pollack and Gergely Rosta do not begin with theoretical propositions but with questions The authors raise the question of how the social significance of religion in its various facets has changed in modern societies and explain what factors and conditions have contributed to these changes *Philosophy East & West*, 1996 A Global Guide to Interfaith Sandy Bharat, Jael Bharat, 2007 This book introduces the when why who how and what of interfaith It is illustrated with personal reflections and photos from more than ninety interfaith and academics from around the world reading like a Who s who of the movement **Religious Perspectives and Problems** Allen V. Eikner, 1980 This book of readings is arranged and edited with the beginning student in the philosophy of religion in mind It does not deal with certain technical and highly specialized problems which are of interest to the advanced student The articles have been chosen because of their deep insight into some of the more basic and general problems in the philosophy of religion and because of their clarity of explanation **Bibliographic Guide to Psychology** New York Public Library. Research Libraries, 1994 *Index to Book Reviews in Religion*, 1999 Buddha-nature, Mind, and the Problem of Gradualism in a Comparative Perspective David Seyfort Ruegg, 1992 **Encyclopedia of World Problems and Human Potential** Union of International Associations, 1994 The destruction of wildlife habitats organized crime AIDS illiteracy acid rain these are among the 130 000 topics documented and discussed in the new edition of the Encyclopedia But its truly unique goal is to present this complex

set of issues in ways that facilitate an organized response To this end the book also focuses on the complex relationship between problems and society's own ideological relationship with these problems How do human priorities and perceptions aggravate or enable problems What are the established and alternative responses The Encyclopedia contains over 158 000 cross references between entries an extensive 91 000 practical key term index bibliographies and full cross referencing to the Yearbook of International Organizations For anyone concerned with the world community here are the means to explore and participate in today's most crucial endeavors Volume 2 Human Potential Transformation and Values contains 7 700 entries reflecting a spectrum of problem solving approaches based on such human development issues as self learning creativity and modes of awareness The volume also focuses on specific religious beliefs value systems and thought patterns

**The Problem of Religious Knowledge** William T. Blackstone, 1963 This book is designed for those who have this concern and puzzlement though of course it offers no guarantee of resolving such puzzlement It is not designed to be a highly specialized and technical treatise in philosophy of religion but one which can be read and appreciated by students and educated laymen It has two specific purposes that of providing a clear picture of development in contemporary philosophy and the impact of these developments in philosophy of religion and that of systematically exploring the question Is there religious knowledge Contemporary philosophy is used as a point of reference for devising a framework within which this question can be answered Space limitations have forced an all too brief treatment of some positions Such brevity tends to distort but I have made efforts to avoid such distortion Author's Preface *Religion in Planetary Perspective* William W. Mountcastle, 1978 The focus of the present essay is religion the religion of humankind on planet Earth This is clearly a proper topic for religious studies but as our intention is to employ categories of critical analysis it will also be a philosophical and theological inquiry The Moral Interpretation of Religion Peter Byrne, 1998 This text takes the reader through the essential characteristics of moral interpretation including the idea of a personal creator and the secular problem of evil assessing its viability as an approach **Current Contents** Institute for Scientific Information (Philadelphia), 1993

**Religion in Philosophical and Cultural Perspective** J. Clayton Feaver, William Horosz, 1967 *Philosophy and Religion; Some Contemporary Perspectives* Jerry H. Gill, 1968 Generally speaking there are three ways of approaching the philosophical consideration of religion There is to begin with the historical approach which seeks to trace the development of religious questions and theories through their long ancestry Secondly there is the topical approach which organizes the main themes of religious philosophy according to logically ordered topics and considers them one by one Thirdly there is the school of thought or perspectives approach which groups various contributions in the field according to a similarity of method and or content **Archiv Für Religionspsychologie**, 2007
