Portable Enlightenment Reader:

The Portable Enlightenment Reader Various, 1995-12-01 The Age of Enlightenment of the 18th century also called the Age of Reason was so named for an intellectual movement that shook the foundations of Western civilization In championing radical ideas such as individual liberty and an empirical appraisal of the universe through rational inquiry and natural experience Enlightenment philosophers in Europe and America planted the seeds for modern liberalism cultural humanism science and technology and laissez faire Capitalism This volume brings together works from this era with more than 100 selections from a range of sources It includes examples by Kant Diderot Voltaire Newton Rousseau Locke Franklin Jefferson Madison and Paine that demonstrate the pervasive impact of Enlightenment views on philosophy and epistemology as well as on political social and economic institutions Being Human J. Andrew Kirk, 2019-01-25 This book offers an introductory review to a wide range of thinking formulated over the last half millennium in the Western world about the meaning of human existence It will touch on a variety of issues of contemporary significance such as the origin and uniqueness of the human species freedom and determinism the nature of good and evil and the possibilities and limits of the sciences The book will supply a number of explanatory comments from a Christian perspective on the various views uncovered Insofar as human beings are fascinated by exploring the reality of their own selves in relation to history culture the natural environment and a variety of worldviews this book will afford readers plenty of material to stimulate them in their own exploration *The Portable Age of Reason Reader* Crane Brinton, 1969 Power and Progress Paul T. McCartney, 2006-02-01 In *Power and Progress* Paul T McCartney presents a provocative case study of the Spanish American War exposing newfound dimensions to the relationship between American nationalism and U S foreign policy Two significant but distinct foreign policy issues are at the center of McCartney s analysis the declaration of war against Spain in 1898 and the annexation of the Philippine Islands as part of the war s peace treaty According to McCartney Americans were very explicitly and self consciously expanding their nation s sense of mission in making these two foreign policy decisions They drew upon a cultural identity forged from racist religious and liberal democratic characteristics to guide the United States into the uncharted waters of international prominence What America did abroad they emphatically framed in terms of what they believed America to be Foreign policy McCartney argues provided a concrete focus for this sense of mission on the world stage and played a marked role in shaping the contours and substance of American nationalism itself *Power and Progress* provides the first intensive look at how the idea of American mission has influenced the conduct of U S foreign policy lending fresh insight into a transformative moment in the development of both U S foreign policy and national identity It contributes measurably to our understanding of the cultural sources of American foreign policy and thus serves as a partial corrective to studies that overemphasize economic motives *Discovery of God* Rafiq Zakaria, 2000 This Volume Presents A Historical Not A Religions Survey It Analyses The Place Of God In Every Major Religion Cutting Across Religious Precepts And Practices And Brings Out

The Continual Discovery Of The Only One Who Has Endured *The Creation of the British Atlantic World* Elizabeth Mancke, Carole Shammas, 2015-10-15 Was the British Atlantic shaped more by imperial rivalries or by the actions of subnational groups with a variety of economic social and religious agendas The Creation of the British Atlantic World analyzes the interrelationship between these competing explanations for the development of the British Atlantic by examining migration patterns on both the macro and micro level It also scrutinizes the roles played by trade religion ethnicity and class in linking Atlantic borders and the increasingly complicated legal intellectual and emotional relationship between the British sovereign and colonial charterholders Contributors include Joyce E Chaplin John E Crowley David Barry Gaspar April Lee Hatfield James Horn Ray A Kea Elizabeth Mancke Philip D Morgan William M Offutt Robert Orwell Carole Shammas Wolfgang Splitter Mark L Thompson Karin Wulf Avihu Zakai Secularism Mike King, 2007-11-29 Spirituality is a difficult subject in the modern world Everywhere from popular media to the university from the bookshelf to the dinner table religions are derided or marginalised and public figures such as Richard Dawkins set upon anyone who admits to a belief in God It seems that science and religion are fundamentally at odds and that a mutual respect is unacceptable to either in their parallel pursuit of truth Yet the majority of Enlightenment authors engaged with both science and spirituality and did not lose their faith Today we tend to see these authors as not having applied full scientific rigour to their religious beliefs but are we correct in dismissing this aspect of their lives so easily In Secularism Mike King examines the elements of religion philosophy and science which have contributed to an almost total disavowal of spirituality by contemporary western intellectuals He engages with a wide range of thinkers including Pythagoras Marx Spinoza Darwin and Nietzsche and incorporates detailed studies of a variety of spiritual leaders some of whom readers are unlikely to have considered in this way before to uncover why the western world no longer has any interest in devotion or accords it any respect **What's Faith Got to Do with It? Black Bodies / Christian Souls** Douglas, Kelly Brown, 2018-09-26 **The Enlightenment** John M. Dunn, 1999 Discusses various aspects of the Enlightenment including its roots philosophes attacks on Christianity revolt against reason campaigns to reform society and legacy *A Strategy for Reading Biblical Texts* Johnson T. K. Lim, 2002 A Strategy of Reading Biblical Texts provides a fresh impetus to the ongoing debate of hermeneutics and methods in biblical scholarship by examining three core hermeneutical strategies These are author oriented text oriented and reader oriented approaches It also critiques the contributions and limitations of each strategy and argues for a hermeneutical strategy that takes into account the micro and macro biblical corpora Readers are challenged to apply basic hermeneutical protocols when reading biblical texts A theological reading of the biblical texts is crucial and vital because the Bible is a theological document This book also addresses some of the pivotal but nagging questions of meaning authority and the reader's context *The Enlightenment Idea of Human Rights in Philosophy and Education and Postmodern Criticism* Christoph Lüth, Thomas Altfelix, Dieter Jedan, 2002 *The Enlightenment* Ronald S.
