Services CMS and the National Center for Health Statistics and the use of ICD 10 CM codes are now mandated for all inpatient medical reporting requirements This book is for physicians practice managers and all others who need learn ICD 10 It s designed for the clinician to learn how to put their diagnosis into a code and not rely on staff or computer software programs to decide it form them ICD 10 is a complex system of coding and Medicare and third party insurers have been lenient giving providers a year to get used to the coding system As a result physicians and their staff have become very complacent regarding proper coding However Medicare and third party insurers will soon begin to deny claims which are not coded correctly which in turn will cost physician groups time and money This book focuses on Worker s Compensation and Personal Injury a very large segment of the healthcare industry and is a new area to ICD 10 The diagnosis coding for injuries is much different than for Medicare or group insurance and unless the physicians and their staff learn how to use it properly they risk losing income for themselves and worse they risk losing the case for the patient
