The Dispensational-covenantal Rift R. Todd Mangum, 2007 This groundbreaking study explores how the fight between dispensationalists and covenant theologians got started and how a unique dynamic of personalities and sociological factors enflamed it Readers may be surprised to discover that even the terminology of dispensationalists and covenant theologians originated in the 1930s disputes that the vast majority of the original protagonists on both sides were Presbyterians and that soteriology rather than eschatology was the original bone of contention between them This study examines how two respective strands of fundamentalism came to identify one another as theological rivals as they each vied for position in their recently formed separatist bodies The significance of disagreements over dispensationalism is explored in the founding of the Orthodox Presbyterian and Bible Presbyterian churches And then as the debate traveled southward the response of the PCUS is examined with special attention given to the consummative report of an ad hoc committee that found dispensationalism to be out of harmony with the Westminster doctrinal standards Significant misunderstandings that impeded fruitful dialogue from the beginning are clarified particularly those that have persisted most stubbornly to the present day Perhaps most surprising of all the reader will discover that nearly all of the original points of debate between dispensationalists and covenant theologians have since been resolved as each side has honed its position in light of pertinent critiques Why has this development gone almost unnoticed This study suggests an answer and proposes that understanding how the feud began may hold the key to rapprochement today

Isaac Abravanel on Miracles, Creation, Prophecy, and Evil Alfredo Fabio Borodowski, 2003 How do philosophical theories influence the reading of the Bible How did the transition from the Middle Ages to the Renaissance alter the views of God miracles prophecy creation and evil This book explores these questions in detail through the work of Isaac Abravanel 1437 1508 a great Jewish statesman philosopher and biblical interpreter who embodied the fundamental paradigm shift from the Middle Ages to the Renaissance This book also serves as an invaluable reference guide to such medieval Jewish philosophers as Saadia Maimonides and Gersonides as well as some of their Muslim counterparts such as Averroes Avicenna and al Ghazali in most of the fundamental issues of

philosophy and biblical interpretation Coniectanea Biblica ,1967 Messianism Within the Scriptural Scroll of Isaiah
 Randall Heskett,2007-09-20 This work re examines the traditional messianic texts in Isaiah used by later Judaism and or
 Christianity Older modern historical criticisms tended to focus on the historical origins of Israelite traditions so that most of
 the texts traditionally regarded as messianic came to be understood as non messianic However Heskett uses various
 historical critical methods and other contextual methodologies to show how smaller units of non messianic tradition in the
 prehistory of the book gained a new messianic significance when they became part of the book of Isaiah as a whole From that
 perspective there are arguments for some messianic promises within the book of Isaiah showing that within the book s
 scriptural context the texts themselves provide a warrant for messianic readings This study takes into account the important
 similarities and differences in Jewish and Christian perceptions of the same Books in Print Supplement ,1973 **History**
and Ideology in the Old Testament Prophetic Literature Antti Laato,1996 In this study arguments are put forward for
 the thesis that biblical exegesis of the Old Testament prophetic literature is not a simple matter of interpreting texts but is
 also a process in which logical models or possible worlds are constructed to accommodate the validity of particular
 interpretations The lack of a model theoretical orientation to Old Testament methodological approaches has led to a situation
 in which the criticism of particular theories rarely addresses the real points of disagreement between scholars One theory is
 simply set against another even though the theories would be more effectively evaluated by discussing the validity and
 relevance of the different models in which they are framed There are various plausible and relevant models available for the
 interpretation of Old Testament texts In order to compare these different models a metalogical system Charles Sanders
 Peirce s semiotics has been used throughout this study Many important methodological issues are discussed in this study a
