

Rift and Revolt in Hungary is "a notable book," says Robert R. Bowie, Director of the Harvard Center for International Affairs, in his foreword to the volume. "Comprehensive, analytical, and lively, it brings new insights to the turbulent events in Hungary since World War II even to an informed reader who followed those events closely as they took place. Its author is peculiarly qualified to write such a volume: international lawyer and political scientist, professor and public servant, he experienced Communist rule in Hungary from the inside. Arrested by the Hungarian Security Police, interrogated according to the usual methods, condemned for conspiracy and high treason, he spent five years of his life in Budapest prisons."

Rift And Revolt In Hungary:

Rift and Revolt in Hungary Ferenc Albert Váli, 1961 Study of post World War Hungarian history **Rift and Revolt in Hungary** Ferenc A. Váli, 1961 **Resistance, Rebellion and Revolution in Hungary and Central Europe** László Péter, Martyn C. Rady, 2008 The Hungarian Cultural Centre in London is proud to be associated with this the third volume on the history of Hungary which the Centre has supported and co published Like its predecessors on Lajos Kossuth and on British Hungarian relations the present work demonstrates the sustained interest in Great Britain in the field of Hungarian history The collection draws together British Hungarian and North American historians and thus illuminates the continued scholarly exchange between both countries and continents The Hungarian Cultural Centre in London was opened in Covent Garden in 1999 From the very start its mission has been to familiarize the British people and the rest of the world with all the treasures that were spread to Europe by the Hungarians as well as to highlight the values that Hungary owes to foreign cultures in this way emphasizing Hungary's role as a bridge for inter cultural communication The present work comports entirely with this aim as well as having its focus on one of the most important events in post war Hungarian and European history the Revolution of 1956 preface p ix Challenge and Response in Internal Conflict: The experience in Europe and the Middle East Doris M. Condit, 1967 **The Real Special Relationship** Michael Smith, 2023-07-18 Gripping deeply researched and authoritative the history of one of the closest intelligence and security relationships in the world The Special Relationship between the United States and Britain is touted by politicians when it suits their purpose and as frequently dismissed as myth not least by the media Yet the truth is that the two countries are bound together more closely than either is to any other ally In *The Real Special Relationship* Michael Smith reveals how it all began eighty years ago when a top secret visit by four American codebreakers to Bletchley Park in February 1941 ten months before the US entered World War II marked the start of a close collaboration between the intelligence services of the two nations When that war ended and the Cold War began both sides recognized that the way they worked together to decode German and Japanese ciphers could be used to counter the Soviet threat They laid the foundation for the behind the scenes intelligence sharing that has continued despite rivalries among the services and occasional political conflict and public disputes between the two nations through the collapse of the Soviet Union 9 11 the wars in Afghanistan and Iraq and to the threats of the present moment Smith who served in British military intelligence brings together a fascinating range of characters from Winston Churchill and Ian Fleming to John F Kennedy Ronald Reagan Margaret Thatcher and Edward Snowden Supported by in depth interviews and a broad range of personal contacts in the intelligence community he takes the reader into the workings of MI6 the CIA the NSA and all those who strive to keep us safe Sir John Scarlett former chief of MI6 has written the introduction and Michael Hayden former director of the CIA and the NSA has provided the foreword **Eastern Europe since 1945** Geoffrey Swain, Nigel Swain, 2017-10-26 An established introductory textbook that provides students with an engaging overview of the

complex developments in Eastern Europe from the end of the Second World War through to the present Tracing the origins of the socialist experiment de Stalinisation and the transition from socialism to capitalism it explores the key events in each nation s recent history This is an ideal core text for dedicated modules on Eastern European History or Europe since 1945 including Central Europe and the Balkans or a supplementary text for broader modules on Modern European History or European Political History which may be offered at all levels of an undergraduate history politics or European studies degree In addition it is a crucial resource for students who may be studying the recent history of Eastern Europe for the first time as part of a taught postgraduate degree in Modern European history European politics or European studies New to this Edition A fully revised new edition of an established text updated throughout to incorporate the latest research Provides coverage of recent events Offers increased focus on social and cultural history with greater emphasis on everyday life and experiences in Eastern Europe

The First Domino Johanna Cushing Granville,2004 A Fascinating Analysis Based on Newly Declassified Documents from the Former USSR and Communist Bloc On October 23 24 and November 3 4 1956 the Soviet Union invaded Hungary to reassert strict communist rule *The First Domino* International Decision Making during the Hungarian Crisis of 1956 is the first analytical monograph in English drawing on new archival collections from East bloc countries to reinterpret decision making during this Cold War crisis Johanna Granville selects four key patterns of misperception as laid out by Columbia University political scientist Robert Jervis and shows how these patterns prevailed in the military crackdown and in other countries reactions to it Granville perceptively examines the statements and actions of Soviet Presidium members the Hungarian leadership U S policy makers and even Yugoslav and Polish leaders According to Granville Soviet first secretary Nikita Khrushchev zigzagged ineptly between policy options with apparently little or no analysis of costs and risks permitting Moscow s Eastern European satellites at times to subtly manipulate the Kremlin s decision making Granville s discussions of Polish policy Yugoslav actions and the arduous process of normalization after the uprising show that the Soviets were preoccupied with stemming what many of them construed as a Western encouraged attempt to undermine Eastern Europe s communist regimes Granville concludes that the United States bears some responsibility for the events of 1956 as ill advised U S covert actions may have convinced the Soviet leaders that the United States was attempting to weaken Soviet hegemony over Eastern Europe although the Eisenhower administration actually intended only to sow confusion and dissatisfaction This masterful study leads to the conclusion that the Hungarian Crisis in 1956 was most likely sustained by self perpetuating misperceptions and suspicions among key countries In short Granville s multi archival research tends to confirm the post revisionists theory about the cold war it was everyone s fault and no one s fault It resulted from the emerging bipolar structure of the international system the power vacuum in Europe s center and spiraling misconceptions

The State against Society Grzegorz Ekiert,1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive

institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse
