carry mythological and spiritual import In each portrait the journey's meaning is unearthed layer by layer and we see not only how it operates in the lives of the travelers themselves but its importance to the modern industrial and largely secular societies from which these figures emerge Cocker shows how foreign landscapes and their inhabitants have been used by travel writers as a means to self definition as well as a source of image fantasy even self image Loneliness and Time illuminates the appeal of travel the desire to explore the unfamiliar and the strange that captivates us all BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved Cue ,1969 **Wings of Light** ,1965
