The Transformation of Rural Society in the  
Hudson River Valley, 1720–1850

Thomas S. Wernuth

# Rip Van Winkle's Neighbors The Transformation Of Rural Society In The Hudson

**David Nathaniel Gellman**

## **Rip Van Winkle's Neighbors The Transformation Of Rural Society In The Hudson:**

**The Other New York** Eugene R. Fingerhut, Joseph S. Tiedemann, 2005-03-17 Essays exploring rural New York during the American Revolution     *Rip Van Winkle's Neighbors* Thomas S. Wermuth, 2001-09-20 Although Rip Van Winkle was a fictional character his community in the mid Hudson Valley of New York State was very real Thomas S Wermuth's book shows that the popular view of Hudson Valley farmers as self sufficient independent and free of governmental authority is as fictional as the character of Rip Van Winkle himself In fact these mid Hudson farmers lived in villages where economic practices and behavior were regulated by civil authorities as well as neighborhood concerns and where acquisitive practices that were believed to endanger the public good were forbidden Based on extensive research into previously unused town records and commercial accounts this book challenges the belief that the early valley was a capitalist society arguing that the beliefs and practices associated with modern capitalism developed slowly and unevenly and were not always welcomed by valley families     **American Georgics** Edwin C. Hagenstein, Sara M. Gregg, Brian Donahue, 2011-01-01 From Thomas

Jefferson's Monticello to Michelle Obama's White House organic garden the image of America as a nation of farmers has persisted from the beginnings of the American experiment In this rich and evocative collection of agrarian writing from the past two centuries writers from Hector St Jean de Crevecoeur to Wendell Berry reveal not only the great reach and durability of the American agrarian ideal but also the ways in which society has contested and confronted its relationship to agriculture over the course of generations Drawing inspiration from Virgil's agrarian epic poem *Georgics* this collection presents a complex historical portrait of the American character through its relationship to the land From the first European settlers eager to cultivate new soil to the Transcendentalist utopian and religious thinkers of the nineteenth century American society has drawn upon the vision of a pure rural life for inspiration Back to the land movements have surged and retreated in the past centuries yet provided the agrarian roots for the environmental movement of the past forty years Interpretative essays and a sprinkling of illustrations accompany excerpts from each of these periods of American agrarian thought providing a framework for understanding the sweeping changes that have confronted the nation's landscape     **Emancipating New**

**York** David Nathaniel Gellman, 2006 David N Gellman has written the most complete study to date of the abolition of slavery in New York State Focusing on public opinion he shows New Yorkers engaged in vigorous debates and determined activism during the final decades of the eighteenth century as they grappled with the possibility of freeing the state's black population In 1799 gradual emancipation in New York began a profound event Gellman argues It helped move an entire region of the country toward a historically rare slaveless democracy creating a wedge in the United States that would ultimately lead to the Civil War Gellman presents a comprehensive examination of the reasons for and timing of New York's dismantling of slavery It was the northern state with the greatest number of slaves more than 20 000 in 1790 Newspapers pamphlets legislative journals and organizational records reveal how whites and blacks citizens and slaves activists and politicians

responded to the changing ideologies and evolving political landscape of the early national period and concluded that slavery did not fit with their state's emerging identity. Support for the institution atrophied and eventually the preponderance of New York's political leaders endorsed gradual abolition. The first book on its subject, *Emancipating New York*, provides a fascinating narrative of citizenry addressing longstanding injustices central to some of the greatest traumas of American history. The debate within the New York public sphere over abolition proved a pivotal contest in the unraveling of worldwide slavery. Gellman shows and set the stage for intense political conflicts in the nineteenth century. **BOOK JACKET** **Munsee**

**Indian Trade in Ulster County New York 1712-1732** Kees-Jan Waterman, J. Michael Smith, 2013-10-24 This book offers the full annotated translation of a recently discovered Dutch account book recording trade with Native Americans in Ulster County New York from 1712 to 1732. The ledger contains just over two thousand transactions with about two hundred native individuals. Slightly more than one hundred Indians appear with their names listed. The volume and granularity of the entries allow for detailed indexing and comparative analysis of the people and processes involved in these commercial dealings in the mid-Hudson River Valley. Waterman and Smith place this exceptional resource within its historical context, presenting figures and tables with aggregated data. They examine several key aspects of the intercultural exchanges, such as the high level of participation by Native American women and the growing importance of the deerskin trade in this region. In addition, the appendix contains individual profiles of forty Esopus and Wappinger Indians appearing in the Ulster County account book.

**The World of the Revolutionary American Republic** Andrew Shankman, 2014-04-16 In its early years, the American Republic was far from stable. Conflict and violence, including major land wars, were defining features of the period from the Revolution to the outbreak of the Civil War, as struggles over who would control land and labor were waged across the North American continent. *The World of the Revolutionary American Republic* brings together original essays from an array of scholars to illuminate the issues that made this era so contested. Drawing on the latest research, the essays examine the conflicts that occurred both within the Republic and between the different peoples inhabiting the continent. Covering issues including slavery, westward expansion, the impact of Revolutionary ideals, and the economy, this collection provides a diverse range of insights into the turbulent era in which the United States emerged as a nation. With contributions from leading scholars in the field, both American and international, *The World of the Revolutionary American Republic* is an important resource for any scholar of early America.

**Key to the Northern Country** James M. Johnson, Christopher Pryslopski, Andrew Villani, 2013-07-10 The Hudson River Valley, which George Washington referred to as the Key to the Northern Country, played a central role in the American Revolution. From 1776 to 1780, with major battles fought at Saratoga, Fort Montgomery, and Stony Point, the region was a central battleground of the Revolution. In addition, it witnessed some of the most dramatic and memorable aspects of the war, such as Benedict Arnold's failed conspiracy at West Point, the burning of New York's capital at Kingston, and the more than six hundred mile march of Washington and the Continental Army and Jean Baptiste Donatien de

Vimeur comte de Rochambeau and his French Expeditionary Corps to Yorktown Virginia Compiled from essays that appeared in the Hudson Valley Regional Review and the Hudson River Valley Review published by the Hudson River Valley Institute the book illustrates the richly textured history of this supremely important time and place America, History and Life,2004 Article abstracts and citations of reviews and dissertations covering the United States and Canada **The Spectralities Reader** Maria del Pilar Blanco, Esther Peeren, 2013-08-29 The Spectralities Reader is the first volume to collect the rich scholarship produced in the wake of the spectral turn of the early 1990s which saw ghosts and haunting conjured as compelling analytical and methodological tools across the humanities and social sciences Surveying the past twenty years from an interdisciplinary and cross cultural perspective the Reader displays the wide range of concerns spectrality in its diverse elaborations has been called upon to elucidate The disjunctions produced by globalization the ungraspable quality of modern media the convolutions of subject formation in terms of gender race and sexuality the elusiveness of spaces and places and the lingering presences and absences of memory and history have all been reconceived by way of the spectral A primer for the wide readership engaged with cultural interpretations of ghosts and haunting that go beyond the confines of the fictional and supernatural The Spectralities Reader includes twenty five groundbreaking texts by prominent contemporary thinkers from Jacques Derrida and Gayatri Spivak to Avery Gordon and Arjun Appadurai as well as a general introduction and six section introductions by the editors Huguenot Refugees in Colonial New York Paula Wheeler Carlo, 2005 Drawing comparisons with the broader Huguenot diaspora this book reassesses the prevailing view that Huguenots in North America quickly conformed to Anglicanism and abandoned the French language and other distinctive characteristics in order to assimilate into Anglo American culture Although the standard interpretation may still be true for Huguenots in heterogeneous urban communities it should be modified for Huguenots in ethnically and religiously homogeneous rural settlements like New Paltz and New Rochelle where the process was more akin to a gradual acculturation *Manufacturing Pioneers* Eric J. Morser, 2002 **Journal of Agricultural and Applied Economics** ,2002 **Forthcoming Books** Rose Army, 2001
