Rise Fall And Legacy Of Apartheid:

The Rise, Fall, and Legacy of Apartheid P. Eric Louw, 2004-12-30 In this accessible narrative Louw effectively tells the story of 20th century South Africa by examining three political periods British Hegemony 1900 1948 the Afrikaner Nationalist Period 1948 1993 and the post 1994 Black Nationalist Period He argues that apartheid was premised upon the notion of political partition and not white supremacy Apartheid was a political strategy constructed by the ethnic minority in order to prevent them from becoming politically powerless Unfortunately the partition plan failed causing an era of pain for South Africa With apartheid now formally over Louw presents a comprehensive overview of this important 20th century phenomenon Topics covered include the roots and causes of apartheid what was apartheid the struggle against apartheid why did Afrikaner Nationalists negotiate their own demise in the 1990s and the impact of apartheid in contemporary South Africa

The Pitfalls of Liberal Democracy and Late Nationalism in South Africa M. Politics Hans Erik Stolten, 2007 In this collection some of South Africa s most distinguished historians and social scientists present their views on the importance of history and heritage for the transformation of the South African society Although popular use of history helped remove apartheid the study of history lost status during the transition process Some of the reasons for this like the nature of the negotiated revolution social demobilization and individualization are analyzed in this book The combination of scholarly work with an active role in changing society has been a central concern in South African history writing This book warns against the danger of history being caught between reconciliation commercialization and political correctness Some of the articles critically examine the role of historians in ideological debates on gender African

agency Afrikaner anti communism early South African socialism and the role of the business world during late apartheid Other contributions explore continuing controversies on the politics of public history in post apartheid South Africa describe the implementation of new policies for history education or investigate the use of applied history in the land restitution process and in the TRC The authors also examine a range of new government and private initiatives in the practical use of history including the establishment of new historical entertainment parks and the conversion of museums and heritage sites For readers interested in nation building processes and identity politics this book provides valuable insight *Choice* ,2005
