Rise Of The Asian Superpowers:

Rise of the Asian Superpowers from 1945 Nigel De Lee,1987-01-01 Surveys the modern history of countries such as Japan China and India and discusses the conflicts between Asian nations *Superpower, China? Historicizing Beijing's New Narratives Of Leadership And East Asia's Response Thereto* Niv Horesh,Hyun Jin Kim,Peter Mauch,2014-10-27 This book sets out to answer how China s rise can best be understood from both East Asian and Western perspectives It also assesses the prospect of realignment away from the US hegemony in East Asia in light of persistent regional rivalries Throughout the book the authors show that for China s neighbours as well as for its own intellectuals historicizing the country s rise provides one way of understanding its current ascendant trajectory on the one hand and acute social problems on the other To which historical precedent should one turn Did Japanese Prime Minister Abe Shinzo get it right when he recently likened the contemporary Sino Japanese relationship to that of Germany and Britain on the eve of World War I Is Harvard Law School s Noah Feldman correct in his assertion that China and the United States are on the verge not of a Cold War but of a Cool War in which a classic struggle for power is unfolding at the same time as economic cooperation is becoming deeper The authors examine these questions and also focus on other observations that becloud China s rise The Rise of an Environmental

Bowker Company,1982 **The Bamboo Network** Murray L. Weidenbaum,Samuel Hughes,1996 Following in the tradition of generations of expatriate Chinese merchants they began establishing small family businesses Today the authors show these

have expanded into conglomerate business empires Entrusting corporate divisions almost exclusively to relatives and dealing extensively with fellow expatriates these entrepreneurs have formed close knit and formidable business spheres throughout Southeast Asia a bamboo network **The Journal of East Asian Affairs** ,2007 *World Affairs* ,2006 *The China Tightrope* Sam Sachdeva,2023-05-23 An incisive analysis of the flashpoints of the New Zealand China relationship Informative and enthralling this is mission critical reading for anyone wanting to understand the New Zealand China relationship Guyon Espiner China presents an enormous challenge for New Zealand It is our biggest trading partner by far yet its leaders have no time for the democratic values that we hold dear How we approach this challenge has huge implications across our entire economy and political system Sam Sachdeva the best Kiwi journalist writing about our place in the world has done a public service with this comprehensive and lively account of New Zealand s history with China and the tests that lie ahead Anna Fifield Asia Pacific editor The Washington Post author of *The Great Successor* For the past 50 years New Zealand has prided itself on a history of breaking new ground with China We were the first to back the country joining the World Trade Organization and ink a free trade deal with milk and meat flowing like water into the Middle Kingdom and enriching our exporters But what might the next 50 years have in store As foreign affairs minister Nanaia Mahuta has cautioned we are moving beyond a relationship of firsts into new territory and the terrain is more treacherous than ever The China Tightrope offers unique analysis and insight into how we got to where we are today and what the future may hold for the New Zealand China relationship China s military expansion into the South China Sea threatens the shipping routes that Kiwis rely on for everyday essentials while its draconian crackdown in Hong Kong and mass detention of Uyghur Muslims in Xinjiang is putting heat on Labour s claims to a values based foreign policy The China Tightrope offers a behind the scenes look at key flashpoints in our relationship with China Like the conditions on the ground for Kiwi companies and ex pats and the political scandals that have called into question how willing our representatives are to call out China s wrongdoing Why has our relationship with China taken a different route to the country s ties with our friends across the ditch and is it a matter of time before we end up in Australia s shoes Are we really the weak link in the Five Eyes spying alliance How viable is our independent foreign policy in an age when the global superpowers are pushing nations to pick sides Finally and perhaps most importantly what could the future hold for the Asian superpower and its relationship with New Zealand China is not the malevolent monster some critics make it out to be but nor can we or should we turn a blind eye to its hardening edge under Xi Jinping It s time for Kiwis to wake up to the risks of becoming over reliant on one country before it s too late Based on interviews with former and current politicians diplomats and leading academics from home and abroad this book is a valuable resource for those seeking to better understand the Asian superpower and how it is changing our world for better and for worse Best Books for Junior High Readers John T.
