to Chemicals K. Asante-Duah, 2002-09-30 In fact with the control and containment of most infectious conditions and diseases of the past millennium having been achieved in most developed countries and with the resultant increase in life expectancies much more attention seems to have shifted to degenerative health problems Many of the degenerative health conditions have been linked to thousands of chemicals regularly encountered in human living and occupational work environments It is important therefore that human health risk assessments are undertaken on a consistent basis in order to determine the potential impacts of the target chemicals on public health

The Politics of Chemical Risk: Scenarios for a Regulatory Future R. Bal, Willem Halffman, 2013-04-17 All industrial countries have developed regulatory systems to assess and manage the risk of chemical substances to the working and natural environment The pressure to harmonize these often specialized regulatory systems is increasingly strong at the international level Such harmonization not only entails the assessment of particular chemicals but also the way assessment procedures and their boundary with risk management is organized As these initiatives intensify they increasingly raise important questions of how to integrate national differences in the international regulatory arena How will national consultation procedures relate to international decision making on chemical risks How will differences in national risk assessment procedures be accommodated How will the international regulatory system be integrated with different national styles of regulation and government Presenting the experiences and insights of both people from within the worlds of risk assessment and management and from the field of Science Studies this book forms a state of the art in the discussion on the Politics of Chemical Risk By offering scenarios or sketches of a regulatory future it points to the choices that can be made and the opportunities to be explored As such it offers an agenda for environmental and occupational scientists policy makers and students of science and technology alike
