Rites And Rank:

Spring and Autumn Historiography Newell Ann Van Auken, 2023-03-14 The Spring and Autumn is an annals text composed of brief records covering the period 722 479 BCE and written from the perspective of the ancient Chinese state of Lu A long neglected part of the Chinese canon it is traditionally ascribed to Confucius who is said to have embedded his evaluations of events within the text However the formulaic and impersonal records do not resemble the repository of moral judgments that they are alleged to be Driven by her discovery that the Spring and Autumn is governed by a system of rules Newell Ann Van Auken argues that Lu record keepers not a later editor produced the formally regular core of the text She demonstrates that the Spring and Autumn employs formulaic phrasing and selective omission to encode the priorities of Lu and to communicate the relative importance of individuals states and events and that many of its records are derived from diplomatic announcements received in Lu from regional states and the Zhou court The Spring and Autumn is fundamentally a document designed to enhance the prestige of Lu and its records reveal a profound concern with relative rank displaying an idealized hierarchy that positions the state of Lu and its rulers at the apex By establishing the Spring and Autumn as a genuine Bronze Age record this book transforms our understanding of its significance and purpose and also offers new approaches to the study of ancient annals in early China and elsewhere The Writing of Weddings in Middle-Period China

Christian de Pee, 2012-02-01 Approaching writing as a form of cultural practice and understanding text as an historical object this book not only recovers elements of the ritual practice of Middle Period weddings but also reassesses the relationship between texts and the Middle Period past Its fourfold narrative of the writing of weddings and its spirited engagement with the texts ritual manuals engagement letters nuptial songs calendars and almanacs and legal texts offer a form and style for a cultural history that accommodates the particularities of the sources of the Chinese imperial past A Korean Confucian's Advice on How to Be Moral Don Baker, 2023-02-28 Tasan Ch'ng Yagyong 1762 1836 is one of the most creative thinkers Korea has ever produced one of the country's first Christians and a leading scholar in Confucian philosophy Born in a staunchly Neo Confucian society in his early twenties he encountered writings by Catholic missionaries in China and was fascinated However when he later learned that the Catholic Church condemned the Confucian practice of placing a spirit tablet on a family altar to honor past generations he left the small Catholic community he had helped found and ostensibly returned to the Neo Confucian fold Nevertheless the Christian ideas he studied in his youth influenced his thinking for the rest of his life stimulating him to look at Neo Confucianism with a critical eye and suggest new solutions to problems Confucian scholars had been addressing for centuries A Korean Confucian's Advice on How to Be Moral is an annotated translation of Tasan's commentaries on the Confucian classic Zhongyong usually translated as The Doctrine of the Mean in which he applies both Confucianism and Christianity to the question of how to best develop a moral character Written as a dialogue with King Ch'ngjo r 1776 1800 these texts reveal how Tasan interpreted his Confucian tradition particularly its

understanding of how human beings could cultivate morality while the king's questions illustrate the mainstream Neo Confucianism. Tansen was reacting against Tansen's challenge to the non-theistic standard insisting that living a moral life is not easy and that we need to be motivated to exert the effort necessary to overcome our selfish tendencies. He had abandoned his faith by the time he wrote these commentaries but influenced by Catholic works and determined to find a more effective way to live a moral life than non-theistic Neo Confucianism provided, Tansen constructed a Confucian philosophy of moral improvement centered on belief in God. This translation helpfully annotated for context and analysis is an exploration of early Korean engagement with the West and a powerful guide to all those interested in Confucianism, Christianity and morality.

Rite of Mizraim Freemasons. Ancient and Primitive Rite of Mizraim, 188? **Orion's Guiding Stars** Marc Ladewig, 2017-04-17 **Bulletin** Östasiatiska samlingarna (Stockholm, Sweden), 1948 *Gathering Hopewell* Christopher Carr, D. Troy Case, 2005-11-22 Among the most socially and personally vocal archaeological remains on the North American continent are the massive and often complexly designed earthen architecture of Hopewellian peoples of two thousand years ago: their elaborately embellished works of art made of glistening metals and stones from faraway places and their highly formalized mortuaries. In this book, twenty-one researchers in interwoven efforts immerse themselves and the reader in this vibrant archaeological record in order to richly reconstruct the societies' rituals and ritual interactions of Hopewellian peoples. By finding the faces, actions and motivations of Hopewellian peoples as individuals who constructed knowable social roles, the authors explore in a personalized and locally contextualized manner the details of Hopewellian life: leadership, its sacred and secular power bases, recruitment and formalization over time, systems of social ranking and prestige, animal totemic clan organization, kinship structures and sodalities, gender roles, prestige work load and health, community organization in its tri-scalar residential, symbolic and demographic forms, intercommunity alliances and changes in their strategies and expanses over time and interregional travels for power, questing, pilgrimage, healing, tutelage and acquiring ritual knowledge. This book is useful to scholars, graduate students and advanced undergraduates interested in the workings and development of social complexity at local and interregional scales, recent theoretical developments in the anthropology of the topics listed above, the prehistory of eastern North America, its history of intellectual development and Native American ritual symbolism and belief. *Passing on the Rites of Passage* Thera Rasing, 1995 This book aims to contribute to current debates over initiation rites in the context of the Catholic church. The amalgamation of traditional initiation rites and Catholic dogma has not been studied before by anthropologists. Initiation rites are presently performed by women's church groups which are lay groups centered around a church. The specific ideas and practices related to these rites are the main subject of this book. An initiation rite performed by members of a women's church group located in an urban Roman Catholic community in Zambia is described here in detail. *Chambers's Encyclopædia*, 1887 A Social History of Medieval China Ruixi Zhu, Bangwei Zhang, Fusheng Liu, Chongbang Cai, Zengyu Wang, 2016-12-22 A valuable reference work for the social
