Promising Practices In Global Education A Handbook With Case Studies:

Promising Practices in Global Education Robert E. Freeman, 1986 On the face of it there would seem to be little argument that our nation should have an educational system that produces at least a minimal cadre of experts about other peoples and cultures as well as professionals in business and government who can transact negotiations across national borders We should have scientists and technicians who can extend and share human knowledge across the globe And finally we must have citizens knowledgeable enough to support tough leadership decisions and policies in a complicated and dangerous world Against this background the time has come to organize coalitions to support school based international education programs The case studies provided here reveal the successful experiences of state agencies universities world affairs citizen groups foundations and regional collaboratives

Visions in Global Education Toni Fuss Kirkwood-Tucker, 2009 This book is a compilation of new scholarship in the field of global education Previously unaddressed or barely touched upon topics include the historical evolution of the global education movement the development of a foundation for the formation of a philosophy of global education an analysis of the competing orientations of global education and multicultural education mentorship in global education pedagogy based on the master apprentice model and the latest research of the impact of national policies in education on global teacher education practice A unique contribution captures the complexities and geopolitical context during Russia's early hours of democracy in integrating global education in Russian education Written by internationally acclaimed scholars this book is at the cutting edge of new creative scholarship in global education *Visions in Global Education* is a must read for teachers in every stage of their careers and will be useful in a variety of classrooms addressing global education
