## Rider Haggard:

*Giants of the Past* Lisa Hopkins, 2004 This book considers the ways in which the idea of evolution has been used in popular fiction focusing mainly on novels of the Victorian and Edwardian periods but also including a closing section on Steven Spielberg's first two Jurassic Park films The book's overall argument is that in many of these texts the version of origins proffered by Darwinian theory is suggestively played off against both the version of human origins offered by Milton and the book suggests implicitly supported by Shakespeare and the version of national origins offered by Virgil and by the myth of Brutus legendary grandson of Aeneas and supposed first founder of Britain Nevertheless although these novels tend to give such prominence to alternatives to Darwinian theory they are also very ready to draw on any aspects of it which will lend support to their own agendas especially when it comes to drawing sharp distinctions between races and sexes Although Darwinian theory posed challenges to contemporary orthodoxies and pieties it could thus also be used in the support of some of them *The New Journalism, the New Imperialism and the Fiction of Empire, 1870-1900* Andrew Griffiths, 2015-08-25 Aggressive policy enthusiastic news coverage and sensational novelistic style combined to create a distinctive image of Britain's Empire in late Victorian print media *The New Journalism the New Imperialism and the Fiction of Empire 1870 1900* traces this phenomenon through the work of editors special correspondents and authors *The Mummy's Curse* Roger Luckhurst, 2012-10-25 A quirky history that offers a new way of understanding the myth of the mummy's curse Roger Luckhurst provides a startling path through the cultural history of Victorian England and its colonial possessions **The Publisher**, 1909 *Miller's Collectables Handbook & Price Guide 2016-2017* Judith Miller, 2016-05-05 Miller's Collectables Handbook Price Guide 2016 2017 is the up to date guide to the collectables market no dealer collector or auctioneer should be without Featuring more than 4 000 objects in full colour each with a detailed description and current price range the book also offers what those in the know look for how to spot that rare example that may be worth twenty times more than another piece Meanwhile in depth Closer Look features explain what to look for when appraising everything from 20th century glass to costume jewellery Every image is changed for every edition to keep the book up to date with collecting and buying trends Miller's Collectables Handbook Price Guide 2016 2017 is the only full colour fully illustrated collectables price guide in the world Comprehensive sections cover advertising books ceramics glass metalware pens and writing equipment plastics and Bakelite posters rock and pop sporting memorabilia teddy bears toys and games and vintage fashion This year special sections focus on Goss Crested china affordable jewellery Hornsea ceramics and Szeiler figurines In depth features explain why one piece is worth more than another show how to value an item and teach you to be your own expert this book is the essential eBay companion Biographies of designers and factories give the background information you need to help date and value objects **Der Zauberer im Sululande** H.
