Riding The Wind A New Philosophy For A New Era:

Riding the Wind Peter H. Marshall, 2000 **Thinking with Animation** Joff P. N. Bradley, Catherine Ju-yu Cheng, 2021-08-09 This volume brings together scholars based predominantly in Asia to contribute provocative and experimental essays on the dynamic relationship between animation and philosophy In an inventive and playful philosophical way they address not only the mainstay of Japanese animation but also Korean film picture books and Mickey Mouse to understand what we might call film philosophy in Asia In thinking animation with concepts from the technicolour philosophies of Deleuze Guattari Stiegler Benjamin Kristeva and Heidegger the book sees animation not as a representation of a philosophical idea per se but conceptualizes it as a philosophical thinking device In the images themselves what is at work is not just the thinking of a particular director or manga artist but rather thinking as such through and by the images themselves The scholars in this collection are committed to thinking images themselves as thought experiments and thinking machines **Anarchism in Local Governance** Stephen Condit, 2019-06-28 Through accounts of his experience as a local politician and elected once holder Stephen Condit examines in *Anarchism in Local Governance* how his anarchist convictions may have contributed to the administration of his community in a way that empowers citizens towards self governance and prefiguration of communal anarchist ideals The hypothesis is that municipal governance and anarchist thought and praxis can both benefit by this kind of encounter Condit also investigates the emergence of anarchism through citizen participation in civil society as a reality to which the municipality is accountable **The Tao of the West** J.J. Clarke, 2002-01-04 In this book J J Clarke shows us how Taoist texts ideas and practices have been assimilated within a whole range of Western ideas and agendas We see how Chinese thinkers such as Lao tzu and Chuang tzu along with practices such as Feng Shui and Tai Chi have been used as a key Western inspiration in religion philosophy ethics politics ecology and health *The Tao of the West* not only provides a fascinating introduction to Taoism it also offers a timely insight into the history of the West s encounter with this ancient tradition and into the issues arising from inter cultural dialogue Anyone interested in understanding the key influence Taoism has had on the West will welcome and embrace this book **Anthropology, Ecology, and Anarchism** Brian Morris, 2015-01-01 Over the course of a long career Brian Morris has created an impressive body of engaging and insightful writings from social anthropology and ethnography to politics history and philosophy that have made these subjects accessible to the layperson without sacrificing analytical rigor But until now the essays collected here originally published in obscure journals and political magazines have been largely unavailable to the broad readership to which they are so naturally suited The opposite of arcane specialized writing Morris s work takes an interdisciplinary approach that moves seamlessly among topics offering up coherent and practical connections between his various scholarly interests and his deeply held commitment to anarchist politics and thought Approached in this way anthropology and ecology are largely untapped veins whose relevance for anarchism and other traditions of social thought have only recently begun to be explored and debated

But there is a long history of anarchist writers drawing upon works in those related fields Morris's essays both explore past connections and suggest ways that broad currents of anarchist thought will have new and ever emerging relevance for anthropology and many other ways of understanding social relationships His writings avoid the constraints of dogma and reach across an impressive array of topics to give readers a lucid orientation within these traditions and point to new ways to confront common challenges
