J Spring

Right V Might International Law And The Use Of Force:

Right V. Might Louis Henkin, 1991 **The Power and Purpose of International Law** Mary Ellen O'Connell, 2011-05-10 The Power and Purpose of International Law provides a well conceived explanation of the role of international law in today's world and how there are no acceptable arguments to justify the use of torture and secret prisons or to support the notion of a global battlefield By analyzing the history of ideas about international law and its actual operation O'Connell has provided an important and timely work for citizens students and scholars *The Workings of Human Rights, Law and Justice* Surya Subedi, QC, 2022-04-21 Drawing on the personal experience of a leading international jurist this book provides insights into the workings of international law and human rights from a global perspective that transcends the traditional divide between the West and the East and the Global South and Global North The work follows the author's remarkable journey from a simple village in Nepal to becoming an international jurist acclaimed for his innovative academic and influential practical legal work and nomination for the Nobel Peace Prize It offers insights into the powers bearing on international policymaking the dynamics of human rights negotiations with governments and the effects of their outcomes on the lives of their citizens While much has been written on international human rights law this inspirational memoir casts a new light on the working of human rights law and justice through the eyes of a leading actor It provides a valuable contribution to the study of justice and human rights and the importance of individual action As such the book presents an accessible source for current debates around the development and effectiveness of international law and human rights and practices for decolonising these debates The book will provide inspiration and practical guidance for students academics international lawyers jurists and human rights advocates **International Law and the Use of Force** Christine D. Gray, 2000 Since the publication of the first edition of International Law and the Use of Force events have led to a major reappraisal of international law on the use of force The terrorist attacks of September 11th and Operation Enduring Freedom in Afghanistan have raised fundamental questions about the right to use force in self defence against terrorism and the scope of the war on terror The question of whether there is now a new doctrine of pre-emptive self defence has divided States The invasion of Iraq in 2003 has prompted serious questions about the role of the United Nations and the legal basis of Operation Iraqi Freedom had the UN Security Council authorized the use of force against Iraq Was the US entitled to act without such authorization This volume covers the whole of the large and controversial subject of the use of force in international law it examines not only the use of force by States but also the role of the UN and regional organizations in the maintenance of international peace and security Book jacket Can Might Make Rights? Jane Stromseth, David Wippman, Rosa Brooks, 2006-09-25 This book looks at why it's so difficult to create the rule of law in post conflict societies such as Iraq and Afghanistan and offers critical insights into how policy makers and field workers can improve future rule of law efforts A must read for policy makers field workers journalists and students trying to make sense of the international community's

problems in Iraq and elsewhere this book shows how a narrow focus on building institutions such as courts and legislatures misses the more complex cultural issues that affect societal commitment to the values associated with the rule of law The authors place the rule of law in context showing the interconnectedness between the rule of law and other post conflict priorities such as reestablishing security The authors outline a pragmatic synergistic approach to the rule of law which promises to reinvigorate debates about transitions to democracy and post conflict reconstruction Right V. Might ,1991 The Air Force Law Review ,1991 **Humanitarian Intervention: An Inquiry Into Law and Morality, 3rd Edition** Fernando Tesón,2021-10-01 *ILSA Journal of International & Comparative Law* ,1999 State Consent to Foreign Military Intervention during Civil Wars Seyfullah Hasar,2022-04-04 Examining the legality of foreign military intervention in internal conflicts with the consent of the government this book gives and analyses a to the point account of post Cold War State practice with more than 45 incidents of such interventions on a scale neglected in current scholarship Owing to this account it also manages to engage in peripheral aspects of the subject overlooked in the literature such as the impact of an ineffective arms embargo on a consensual intervention or the consequences of the invocation by an intervening State of both consent and its right to self defence The book also examines among others the issue of the legal legitimacy and recognition of governments the rules that can considerably constrain the scope of consensual interventions under certain circumstances and the challenging and under addressed implications of consensual interventions for the crime of aggression **Maryland journal of international law and trade** ,1990 **Michigan Journal of International Law** ,2013 Stanford Journal of International Relations ,2003 *Denver journal of international law and policy* ,2002 **International Law** Barry E. Carter,Phillip R. Trimble,1995 **Stanford Journal of International Law** ,2000 **Issues in International Law and Military Operations** Richard Jaques,2006 Singapore Journal of International & Comparative Law ,1997 **Reflections on American Exceptionalism** David Keith Adams,Cornelis A. van Minnen,1994 This selection has been shaped by the desire to provide internal cohesion around the theme of democratic republicanism as expressed domestically reflected externally and articulated in particular foreign policy exercises **International Law Studies** Naval War College (U.S.),1995
