Social Rights and the Constitutional Moment Koldo Casla, Magdalena Sepúlveda, Vicente Silva, Valentina

Contreras, 2022-06-02 Chile's constitutional moment began as a popular demand in late 2019. This collection seizes the opportunity of this unique moment to unpack the context, difficulties, opportunities, and merits to enhance the status of environmental and social rights, health, housing, education, and social security in a country's constitution. Learning from Chilean and international experiences from the Global South and North and drawing on the analysis of both academics and practitioners, the book provides rigorous answers to the fundamental questions raised by the construction of a new constitutional bill of rights that embraces climate and social justice. With an international and comparative perspective, chapters look at issues such as political economy, the judicial enforceability of social rights, implications of the privatisation of public services, and the importance of active participation of most vulnerable groups in a constitutional drafting process. Ahead of the referendum on a new constitution for Chile in the second half of 2022, this collection is timely and relevant and will have direct impact on how best to legislate effectively for social rights in Chile and beyond. *An Introduction to*

Disability Inclusive Disaster Risk Reduction Shaun Grech, Jörg Weber, 2025-03-20 This first of its kind volume introduces Disability Inclusive Disaster Risk Reduction (DIDRR) in unprecedented critical and interdisciplinary ways, covering the complex conceptual, theoretical, and practice terrain. Established and emerging scholars and practitioners introduce and probe key discourses, theory, policy, and practice at the intersections of disability, disasters, and disaster risk reduction, navigating compound and dynamic areas including climate change, governance, wars and conflict, forced migration, disability representation, geopolitics, gender, and ethnicity. This edited book lays out and questions established policies, discourses, and practices in mainstream areas including Disaster Risk Reduction, Disaster Risk Management, and Humanitarian Action, opening an effective critical debate to understand, challenge, and shift dominant paradigms. By developing new theory on DIDRR, it will serve as an important tool for academics, researchers, and practitioners working in multiple fields including disability studies, disaster management, global health, humanitarian studies, international studies, and geography, among others.
