Rigid Plastics Packaging Materials Processes And Applications:

Rigid Plastics Packaging F. Hannay, 2002 This report starts with a simple overview of materials processes and application for rigid plastics packaging and progresses to the latest developments Processing methods are described briefly in the review with an overview of each type accompanied by a discussion of forthcoming developments The properties of the different polymers and polymer grades related to packaging applications are also discussed The review is accompanied by over 400 summaries of papers from the Rapra Polymer Library on developments in polymers processes and applications for rigid packaging Polymer Processing with Supercritical Fluids Vanessa Goodship, Erich Ogur, 2004 SCFs are currently the subjects of intense research and commercial interest Applications such as the RESS rapid expansion of supercritical fluid solutions process are part of standard industrial practice In view of their ever growing importance in the polymer industry there is a need to fully comprehend how supercritical fluids interrelate with polymeric materials to realise the potential that can be gained from their use The authors review the basic principles of SCFs and their application within the polymer industry characteristics and properties extraction of unwanted residual products polymerisation solvents and polymer impregnation Processing applications such as plasticisation foaming and blending are also considered There is discussion of the potential within the polymer recycling industry for use of SCFs as cleaning agents or within supercritical oxidation processes Around 400 references with abstracts from recent global literature accompany this review sourced from the Polymer Library to facilitate further reading A subject index and a company index are included **Biocides in Plastics** D. Nichols, 2004 This Rapra Review Report examines the use of biocides in plastics with reference to material types and application requirements The commonly available biocides are reviewed and details of their strengths and weaknesses are provided The author reviews the frequently used test methods for fungi and bacteria and in an ever changing regulatory environment explores the influence of legislation on the current and future use of such biocides This detailed and state of the art review is supported by an indexed section containing several hundred key references and abstracts selected from the Polymer Library database **Coatings and Inks for Food Contact Materials** Martin Forrest, 2007-10 This Rapra Review Report Coatings and Inks for Food Contact Materials has attempted to cover all of the coatings and inks products used in food contact scenarios In practice this encompasses an extremely wide range of polymer systems and formulations and an emphasis has been placed on coatings and inks used in food packaging as this is usually regarded as representing the most important application category with respect to the potential for migration to occur In addition to a thorough introduction of the polymers and additives that are used to produce coatings and inks there are also chapters covering the regulation of these materials the migration and analytical tests that are performed on them to assess their suitability for food contact applications the migration data that have been published and the areas in the field that are receiving the most attention for research and development The report is accompanied by around 400 abstracts compiled from the Polymer Library to

facilitate further reading on this subject *Fluoroplastics* Jiri George Drobny, 2006 Fluoropolymers were discovered accidentally by Plunkett in 1938 He was working on freon and accidentally polymerised tetrafluoroethylene The result was polytetrafluoroethylene PTFE more commonly known as Teflon PTFE is inert to virtually all chemicals and is considered to be the most slippery material in existence it has the lowest coefficient of friction of any known solid material These properties have made it one of the most valuable and versatile technologies ever invented contributing to significant advancements in areas such as aerospace communications electronics industrial *EU Regulation of Chemicals* D. J. Knight, 2006 Food Contact Rubbers 2 M. Forrest, 2006 The objective of this Rapra Review Report is to provide a comprehensive overview of the use of rubber as a food contact material from an initial description of the types of rubber which are used in the industry through the formulation of products and the contact regulations and migration testing regimes to the research that is on going to improve its safety and the trends for the future This report is a completely revised and updated version of Rapra Review Report 119 published in 2000 This Rapra Review Report comprises a concise expert review supported by an extensive bibliography compiled from the Rapra Abstracts database on the topic of rubbers in contact with food This bibliography provides useful additional information on this topical field **Rapra Review Reports** , **Tyre Recycling** Valerie Shulman, 2004 This is an expert overview on the topic of tyre recycling It summarises current practices and the factors that have contributed to their growth and efficacy as viable economically and environmentally sound methods of dealing with post consumer tyres The primary area of study of this report is the EU but reports from the US have also been cited Statistics from the EU markets which illustrate changes in the industry since the inception of the European Tyre Recycling Association a decade ago are incorporated Around 400 references with abstracts from recent global literature accompany this review sourced from the Polymer Library to facilitate further reading A subject index and a company index are included **Plastics World** , 1986 **Plastics Industry** , 1960 **Machine Design** , 1979 **Engineering Materials and Processing Methods** , 1971 Issues for 1929 include section Contents noted 1929 1939 called Metallurgical abstracts Jan 1940 Sept 1945 called Engineering digest Oct 1945 called Materials beginning in 1942 included in the complete index to the periodical **Adult Catalog: Subjects** Los Angeles County Public Library, 1970 *Annual Report* Monsanto Company, **Engineering Index** , 1969 *Distribution Packaging* Walter F.
