Ring Around The Sun:

Ring Around the Sun Clifford D. Simak, 2011-09-29 Jay Vickers was an ordinary man or so he thought All he wanted was to be left in peace to finish his next book However strange things started happenin from his discovery of a mouse that was not a mouse to the visit of an old neighbor that was not a man Or at least he was not an ordinary man For as it turned out neither was Jay Vickers This is the story of human mutation the next step in the evolution of the species What if mutants walked among us already What if they were organized What if they had unbelievable powers such as the ability to cross between alternate worlds or dimensions at will or to intuitively reach the absolutely correct answer by intuition or hunch or to telepathically reach out to the stars Such supermen would automatically try to conquer lesser men would they not Or would they do everything in their power to free the rest of humanity from slavery and suffering Just what would the political and corporate powers that be do to keep their power and their slaves How would mutants undermine the power of these bosses to set mankind free This is a story of unlimited freedom of worlds without end ready for the taking It is also the story of powerful benevolent beings that exist only to help those who need that help This is a future of a lop sided mechanical culture of technology that could provide creature comfort for a few but not human justice or security for the many It is a future of hate and war and worry Nothing like the way the world really turned out after all there couldn t really be an underground of mutants working to free humanity could there
