Risking Hope Fragile Faith In The Healing Process:

Risking Hope Kathleen O'Connell Chesto, Kathleen O. Chesto, 1999 This is a story about healing and hope In a compelling journal written as she struggled with the diagnosis of degenerative illness Kathy Chesto expresses the emotions common to all those confronted with the possible destruction of life as they know it *Bordering Biomedicine* Vera Kalitzkus, Peter Twohig, 2006 Biomedicine is the dominant organizing framework of modern medicine but it is not the only lens through which health illness and disease can be understood This interdisciplinary collection of essays brings together scholars from around the world who seek to probe the boundaries of biomedicine This book is the outcome of the third global conference on Making Sense of Health Illness and Disease held at St Catherine s College Oxford in July 2004 The papers selected for this volume take a variety of theoretical positions but share an interest in the social study of health illness and disease They consider how biomedicine is a cultural system and is imbued with other meanings and that a full exploration of health illness and disease requires a variety of perspectives including those of social scientists humanists and practicing clinicians This volume will be of interest to students researchers and health care providers who wish to gain insight into the many ways through which we can understand health illness and disease Finding Strength in Weakness Lynn Vanderzalm, 1995 Chronic Fatigue Immune Deficiency Syndrome CFIDS is not the Yuppie flu It is a debilitating incurable illness that hijacks the body s immune system and drains the life out of its victims often leaving them incapacitated for years While researchers around the globe explore the causes of treatments for CFIDS the men women and children who suffer with the illness grapple with questions like Will I ever be normal again Of what value am I now that I can t work or go to school anymore How will CFIDS affect my marriage and my family How will CFIDS affect my ability even to consider marriage or having children How do I glorify God in the midst of a debilitating illness and pain Lynn Vanderzalm and her teenage daughter Alisa have battled CFIDS for over seven years In Finding Strength in Weakness Vanderzalm shares her family s struggles and questions along with those of 70 other men women and children while offering direction encouragement and hope to the countless families who battle with the mystery illness of the nineties Children's Scripture Puzzles Kathleen O'Connell Chesto, Elizabeth Chesto, 1999-08 Children s Scripture Puzzles is a book of games designed to provide a lectionary based supplement to classroom and family based religious education The games each reflecting on one or all of the readings of a particular Sunday are meant as simple conversation starters **Reconstructing Illness** Anne Hunsaker Hawkins, 1999 Serious illness and mortality those most universal unavoidable and frightening of human experiences are the focus of this pioneering study which has been hailed as a telling and provocative commentary on our times As modern medicine has become more scientific and dispassionate a new literary genre has emerged pathography the personal narrative concerning illness treatment and sometimes death Hawkins s sensitive reading of numerous pathographies highlights the assumptions attitudes and myths that people bring to the medical encounter One factor emerges again and again in these case studies the

tendency in contemporary medical practice to focus primarily not on the needs of the individual who is sick but on the condition that we call disease Pathography allows the individual person a voice one that asserts the importance of the experiential side of illness and thus restores the feeling thinking experiencing human being to the center of the medical enterprise Recommended for medical practitioners the clergy caregivers students of popular culture and the general reader Reconstructing Illness demonstrates that only when we hear both the doctor s and the patient s voice will we have a medicine that is truly human

The Serendipity of Hope Simon Lee,Ian S. Markham,2023-07-07 Institutions are very precious If any idea is going to persist into the future then it needs an institution to keep it going Each of us comes to understand often only gradually over the decades how some influences from our earlier life have affected us Some will have been inspiring Some will have given us direct models of how to behave or how not to behave Indeed it is often the case that the deeper an influence turns out to have been in the long run the less likely it is that we noticed it at the time it was happening For this reason it has become necessary to find the time to reflect on and express gratitude for the institutions that helped form who we are and the work that we do This collection of essays explores the impact of one institution on twenty five participants twenty five years after we worked together The Institution was Liverpool Hope University College and is now Liverpool Hope University By telling and reflecting on our stories we aim to encourage others to think about their own experiences and ultimately our earnest hope is that a greater awareness of this aspect of university life will help to transform our collective understanding of the nature of universities in particular and of communities institutions or societies in general But there was something special about belonging to a community called Hope **WLW Journal** ,1990
