Sexuality Morals And Justice A Theory Of Lesbian And Gay Rights And The Law:

Sexuality, Morals and Justice Nicholas Bamforth, 1997-10-23 Against the background of the law reform debates around sexuality in Britain and America Bamforth examines what functions it is legitimate for the law to serve and how effective law can be in achieving social goals He provides a new and cogent argument for protecting lesbian and gay rights through law but is sceptical about how useful law can be in eradicating discriminatory social practices This work sheds new light on the equal rights debate and raises issues of central importance to the role of law in society **Sexuality and Equality Law**

Suzanne B. Goldberg, 2017-07-05 Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together *Sexuality and Equality Law* invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume's introduction situates all of these works in the broader field and offers readers an extensive bibliography **Reader's Guide to Lesbian and Gay Studies** Timothy

Murphy, 2013-10-18 The Reader's Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language literature and communication British Drama law and politics Child Custody medicine and biological sciences Health and Illness and psychology social sciences and education Kinsey Report **The Future of Gay Rights in America** H.N. Hirsch, 2020-03-25 Sandra Day O'Connor has called the gay rights

movement the first important civil rights struggle of the twenty first century Recent court decisions to overturn sodomy laws and to recognize gay marriage have emboldened activists but have also resulted in a tremendous backlash not the least of which has been a call for a constitutional amendment defining marriage as only between members of the opposite sex

Through its historical and legal contextualization of these decisions *The Future of Gay Rights in America* is essential for understanding an epochal moment in the history of gay rights **The Case for Gay Rights** David A. J. Richards, 2005 As

Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards's thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 *Bowers v Hardwick* decision and

the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description Sexuality, Morals and Justice Nicholas Bamforth,1997 Law reform is a central goal of lesbian and gay campaigning groups In recent years there have been attempts to secure equal ages of consent for heterosexual and same sex sexual acts to create anti discrimination laws protecting lesbians and gays to allow lesbians and gays to serve in the military and to permit same sex marriages Reformers usually try to justify such measures by invoking equality respect for privacy or related arguments This book examines the justifications for law reform which have been put forward to date It suggests that they are not in fact as strong as campaigners have assumed and that a stronger case for legal reforms can be made if the idea of empowerment is used While advancing a new argument for protecting lesbian and gay rights through law the book is skeptical about how far law is useful in eradicating discriminatory social practices Thinking Straight Chrys Ingraham,2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company **Zeitschrift für evangelische Ethik** ,1995

Sexual Orientation and the Law James M. Donovan,2006 This bibliography was conceived as an update to the 1994 original Law Library Journal Winter 1994 rather than as a wholly new work For that reason its design follows closely the topical outline of its predecessor Alterations to that outline provide suggestive indicators of the extent to which legal realities have changed in the interim This version also features an attention to foreign and international aspects of sexual orientation law that were missing in the prior documents Publisher s website Sexual Orientation and Human Rights Robert Wintemute,1995 2 Articles 10 and 11 *ILSA Journal of International & Comparative Law* ,1999 **Historical Dictionary of the Lesbian Liberation Movement** JoAnne Myers,2003-07-14 Over the years much has been written on homosexuality and the Gay Liberation Movement but much of the focus has been on male homosexuals TheHistorical Dictionary of the Lesbian Liberation Movement focuses on the youngest of the liberation movements the lesbian movement covering its successes problems and controversies and its future directions General readers and researchers will find this to be a useful guide *Bibliographie internationale des recensions de la littérature savante* ,1974 Sex Equality Catharine A. MacKinnon,2003 This law school casebook explores the argument that gay and lesbian rights are sex equality rights with wide ranging materials from theory movements and case law Issues of language history culture as well as choice of doctrine of privacy sexual orientation discrimination and various approaches to sex equality are presented The first half of the book examines conventional sex equality law and theory The second half extends the analysis onto social terrain not generally recognized by law as posing sex discrimination questions *The Best Books for Academic Libraries: Political science, law, education* ,2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers *Current Publications in Legal and Related Fields* ,1998 *Australian journal of legal philosophy* ,2006
