Shakespeare and the Theatre of Wonder T. G. Bishop, Tom Bishop, 1996-01-18 Playwrights throughout history have used the emotion of wonder to explore the relation between feeling and knowing in the theatre In Shakespeare and the Theatre of Wonder T G Bishop argues that wonder provides a turbulent space rich at once in emotion and self consciousness where the nature and value of knowing is brought into question Bishop compares the treatment of wonder in classical philosophy and drama and goes on to examine English cycle plays charting wonder s ambivalent relation to dogma and sacrament in the medieval religious theatre Through extended readings of three of Shakespeare's plays The Comedy of Errors Pericles and The Winter's Tale Bishop argues that Shakespeare uses wonder as a key component of his dialectic between affirmation and critique Wonder is shown as vital to the characteristic self consciousness of Shakespeare's plays as acts of narrative enquiry and renovation

The essays collected here use the tools of theatre history in their investigation into the phenomenology of the performance experience vet they are also careful to consider the social ideological and institutional contingencies that determine the production and reception of the living spectacle Thus contributors combine a formalist interest in the affective and aesthetic dimensions of language and spectacle with an investment in the material cultures that both produced and received Shakespeare's plays Six of the chapters focus on early modern cultures of performance looking specifically at such topics as the performance of rusticity the culture of credit contract and performance the cultivation of Englishness religious ritual and mourning and memory Building upon and interrelating with the preceding essays the last three chapters deal with Shakespeare and performance culture in modernity They focus on themes including literary and theatrical performance anxiety cultural iconicity and the performance of Shakespearean lateness This collection strives to bring better understanding to Shakespeare's imaginative investment in the relationship between theatrical production and the emotional intellectual and cultural effects of performance broadly defined in social terms Enchantment and Dis-enchantment in Shakespeare and Early Modern Drama Nandini Das, Nick Davis, 2016-12-08 This volume addresses dealings with the wondrous magical holy sacred sainted numinous uncanny auratic and sacral in the plays of Shakespeare and contemporaries produced in an era often associated with the irresistible rise of a thinned out secular rationalism By starting from the literary text and looking outwards to social cultural and historical aspects it comes to grips with the instabilities of enchanted and disenchanted practices of thinking and knowledge making in the early modern period If what marvelously stands apart from conceptions of the world's ordinary functioning might be said

to be enchanted is the enchantedness weakened empowered or modally altered by its translation to theatre We have a received historical narrative of disenchantment as a large scale early modern cultural process inexorable in character consisting of the substitution of a rationally understood and controllable world for one containing substantial areas of mystery Early modern cultural change however involves transpositions recreations or fresh inventions of the enchanted and not only its replacement in diminished or denatured form This collection is centrally concerned with what happens in theatre as a medium which can give power to experiences of wonder as well as circumscribe and curtail them addressing plays written for the popular stage that contribute to and reflect significant contemporary reorientations of vision awareness and cognitive practice. The volume uses the idea of dis enchantment re enchantment as a central hub to bring multiple perspectives to bear on early modern conceptualizations and theatricalizations of wonder the sacred and the supernatural from different vantage points marking a significant contribution to studies of magic witchcraft enchantment and natural philosophy in Shakespeare and early modern drama Stage Representation of Shakespeare's Plays ,1893 Theatre Jan Frans van Dijkhuizen, 2007 The so called Devil Theatre is here set against its context of non dramatic texts on possession and exorcism providing many new insights Representations of demonic possession and exorcism rituals abound in English Renaissance drama an area which this book seeks to illuminate by comparison with non dramatic works The author investigates stage images of possessionin relation to a range of early modern demonological theological and medical prose texts on the subject looking specifically at how the theatre responded to these texts He argues that the stage appropriated debates over demonicpossession to explore the competing roles of the inner life and the body in early modern definitions of selfhood The theatre also employed the contemporary controversy over possession and exorcism to investigate the politics ofreligion and to consider the nature of monarchic power Moreover because demonic possession cases and exorcism rituals were frequently dismissed by conformist writers as a piece of theatre they offered an opportunity to reflecton the nature of drama and role playing JAN FRANS VAN DIJKHUIZEN is lecturer and research fellow at the University of Leiden The Shakespeare Newsletter ,2000 Cahiers Élisabéthains ,2008 tudes sur la pr renaissance et la renaissance anglaises 101 Wonders of the Waterways Steve Haywood, Moira Haynes, 2023-02-02 A charming and characterful guidebook to the best of Britain's diverse and fascinating canal network for all waterway enthusiasts Beautifully illustrated this compendium uncovers the many extraordinary notable and surprising places to be found on Britain's waterways Our canals and rivers link into a diverse 3 000 mile long network and 101 Wonders of the Waterways shows you that wherever you find yourself in the country there will be something nearby to give you a taste of this beautiful and nostalgia infused world Canal cruising experts Steve Haywood and Moira Haynes bring our waterways to life with their witty and lyrical prose including
