United States foreign lobbying industry and the threat to end democracy For years one group of Americans has worked as

foot soldiers for the most authoritarian regimes around the planet In the process they ve not only entrenched dictatorships and spread kleptocratic networks but they ve secretly guided U S policy without the rest of America even being aware And now some of them have begun turning their sights on American democracy itself These Americans are known as foreign lobbyists and many of them spent years ushering dictatorships directly into the halls of Washington all while laundering the reputations of the most heinous repressive regimes in the process These foreign lobbyists include figures like Ivy Lee the inventor of the public relations industry a man who whitewashed Mussolini opened doors to the Soviets and advised the Nazis on how to sway American audiences They include people like Paul Manafort who invented lobbying as we know it and who then took his talents to autocrats from Ukraine to the Philippines and then back to the White House And they now include an increasing number of Americans elsewhere in law firms and consultancies among PR specialists and former lawmakers and even within think tanks and universities In Foreign Agents Casey Michel shines a light on these foreign lobbyists as some of them after decades of installing dictators and corrupting American policy embark on their next mission to end America s democratic experiment once and for all **Bowker/Bantam ...
