Music in The Girl's Own Paper: An Annotated Catalogue, 1880-1910 Judith Barger, 2016-09-13 Nineteenth century British periodicals for girls and women offer a wealth of material to understand how girls and women fit into their social and cultural worlds of which music making was an important part The Girl's Own Paper first published in 1880 stands out because of its rich musical content Keeping practical usefulness as a research tool and as a guide to further reading in mind Judith Barger has catalogued the musical content found in the weekly and later monthly issues during the magazine's first thirty years in music scores instalments of serialized fiction about musicians music related nonfiction poetry with a musical title or theme illustrations depicting music making and replies to musical correspondents The book's introductory chapter reveals how content in The Girl's Own Paper changed over time to reflect a shift in women's music making from a female accomplishment to an increasingly professional role within the discipline using the piano girl as a case study A comparison with musical content found in The Boy's Own Paper over the same time span offers additional insight into musical content chosen for the girls magazine A user's guide precedes the chronological annotated catalogue the indexes that follow reveal the magazine's diversity of approach to the subject of music

Adolescent Girlhood and Literary Culture at the Fin de Siècle Beth Rodgers, 2016-10-06 This book examines the construction of adolescent girlhood across a range of genres in the closing decades of the nineteenth century It argues that there was a preoccupation with defining characterising and naming adolescent girlhood at the fin de siècle These daughters of today juvenile spinsters and modern girls as the press variously termed them occupying a borderland between childhood and womanhood were seen to be inextricably connected to late nineteenth century modernity they were the products of changes taking place in education and employment and of the challenge to traditional conceptions of femininity presented by the Woman Question The author argues that the shifting nature of the modern adolescent girl made her a malleable cultural figure and a meeting point for many of the prevalent debates associated with fin de siècle society By juxtaposing diverse material from children's books and girls magazines to New Woman novels and psychological studies the author contextualises adolescent girlhood as a distinct but complex cultural category at the end of the nineteenth century
