Principles Of Hiv Prevention In Drug Using Populations A Research Based Guide:

Principles of HIV Prevention in Drug-using Populations, 2002 **Principles of HIV Prevention in Drug-using Populations**, 2002 The National Institute on Drug Abuse NIDA has sponsored a comprehensive research program in response to the dynamic nature of the co occurring epidemics of drug abuse and HIV AIDS This research has yielded a set of scientifically based principles for the use of community planners policymakers service providers and medical practitioners as they develop and implement programs to prevent the spread of HIV and other infections among injecting and non injecting drug users and their sexual partners **Principles of HIV Prevention in Drug-using Populations** Glen Hanson, 2002-08 This research based guide will help to foster the scientifically based principles yielded by the research of the co occurring epidemics of drug abuse HIV AIDS Summarizes the basic overarching principles that characterize effective HIV AIDS prevention in drug using populations Elaborates on these principles by providing answers to frequently asked questions Describes the epidemiology of HIV AIDS risk behaviors Provides an overview of major research programs since the mid 1980s to gauge the effectiveness of outreach based interventions in preventing the spread of HIV AIDS other diseases among drug users their sex partners *Drug Abuse: Prevention and Treatment* Mangai Natarajan, 2017-05-15 Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization Activities of the House Committee on Government Reform, One Hundred Ninth Congress, First and Second Sessions, 2005-2006 United States. Congress. House. Committee on Government Reform, 2006 Public Health Reports, 2007 *Public Health Reports*, 2009 **Stalking a Furtive Killer** United States. Congress. House. Committee on Government Reform, 2004 **NCADI Publications Catalog** National Clearinghouse for Alcohol and Drug Information (U.S.), 2001 Morbidity and Mortality Weekly Report, 2012 **Preventing Harmful Substance Use** Tim Stockwell, 2005 The prevention of harm from drug use both legal and illegal is a major concern to government departments and clinicians throughout the world Recently much new research has been conducted regarding global levels and patterns of

drug related harm on common risk factors with other social problems e g mental health crime and on the effectiveness of wide range of intervention strategies There is a need to summarise and synthesise this new knowledge for use in a range of disciplines Preventing Harmful Substance Use offers the most comprehensive and up to date advice available on the prevention of drug and alcohol abuse Contributors provide authoritative science based reviews of knowledge on their areas of expertise and make clear recommendations for the future of prevention policy and practice A final section draws the work together and offers a framework for an integrated science of prevention

Fighting for Our Lives Susan Maizel Chambré, 2006 In the first decade of the AIDS epidemic New York City was struck like no other By the early nineties it was struggling with more known cases than the next forty most infected cities including San Francisco combined Fighting for Our Lives is the first comprehensive social history of New York's AIDS community a diverse array of people that included not only gay men but also African Americans Haitians Latinos intravenous drug users substance abuse professionals elite supporters and researchers Looking back over twenty five years Susan Chambré focuses on the ways that these disparate groups formed networks of people and organizations that both together and separately supported persons with AIDS reduced transmission funded research and in the process gave a face to an epidemic that for many years whether because of indifference homophobia or inefficiency received little attention from government or health care professionals Beyond the limits of New York City and even AIDS this case study also shows how any epidemic provides a context for observing how societies respond to events that expose the inadequacies of their existing social and institutional arrangements By drawing attention to the major faults of New York's and America's response to a major social and health crisis at the end of the twentieth century the book urges more effective and sensitive actions both governmental and civil in the future
