Paths To Progress Bread And Freedom In Developing Societies:

Paths to Progress William Maxwell McCord, Arline McCord, 1986 Examines the areas in which investment in human resources have resulted in economic growth and political stability

Handbook of Win-win Policy Analysis: Basic concepts of win-win analysis Stuart S. Nagel, Sarah Eckart, 2001 This monumental handbook is dedicated to the sources of super optimising including Thomas Saaty on multi criteria decision aiding software Lawrence Susskind on alternative policy dispute resolution and Robert Reich on growth economics which are the fields of management science law and social science applied here toward building a super optimum win win society

Natural Resource Policymaking in Developing Countries William Ascher, Robert G. Healy, 1990 Drawing on case studies developed over a two year period 1987 1989 by Fellows in the Program in International Development Policy at Duke University including experienced representatives from developing countries the World Bank and scholars the authors integrate the growing interest in environmental protection and resource conservation into the existing body of knowledge about the political economy of developing countries This book is about the links that tie resource use environmental quality and economic development and the way in which those links are affected by the distribution of income and resource ownership The links may be relatively simple as in the case of peasant farmers too poor to conserve resources for the future and with nothing to gain from sound environmental practices Or they may be very complex as the authors find when they demonstrate how achievement of higher incomes by the rich can increase environmentally destructive behavior by the poor Many of the links in some way involve rural land use whether for agriculture or forestry

Natural Resource Policymaking in Developing Countries argues that the policies that matter are not merely those dealing with resources and the environment but a much broader set that includes income distribution and asset ownership

Paths to Progress William McCord, Arline McCord, 1986-06 An optimistic proposal for the solution to the fierce problems of the Third World nations by two acknowledged experts

formation and implementation both internationally and across each level of government
