Piece to Text on the Monument and One: Letters with the International Body Managers Kiyoun Kim, 2018-08-17 The aims of this book is clear and straightforward It was motivated to convert an inhumane or insipid experience with the various sources of global ranking into the kind of humanly and cultural experience within our daily lifestyle Their outlook from presentation is masked with the number purely and perhaps through a myriad of complicated data or ranking information The concept or self identification within the experience or exposure would be less substantial or hard to get palpable My attempt to improve this aspect of contemporary practice certainly will fall short but you can sense in some paragraphs or titles I wrote this small piece of book in the end to take care of human integrity and stories for advancing the inherence and liveliness of interested actors or consumers despite all the wind heads from the turf of existing ranking sources

The European Higher Education Area Adrian Curaj, Liviu Matei, Remus Pricopie, Jamil Salmi, Peter Scott, 2015-10-12 Bridging the gap between higher education research and policy making was always a challenge but the recent calls for more evidence based policies have opened a window of unprecedented opportunity for researchers to bring more contributions to shaping the future of the European Higher Education Area EHEA Encouraged by the success of the 2011 first edition Romania and Armenia have organised a 2nd edition of the Future of Higher Education Bologna Process Researchers Conference FOHE BPRC in November 2014 with the support of the Italian Presidency of the European Union and as part of the official EHEA agenda Reuniting over 170 researchers from more than 30 countries the event was a forum to debate the trends and challenges faced by higher education today and look at the future of European cooperation in higher education The research volumes offer unique insights regarding the state of affairs of European higher education and research as well as forward looking policy proposals More than 50 articles focus on essential themes in higher education Internationalization of higher education Financing and governance Excellence and the diversification of missions Teaching learning and student engagement Equity and the social dimension of higher education Education research and innovation Quality assurance The impacts of the Bologna Process on the EHEA and beyond and Evidence based policies in higher education The Bologna process was launched at a time of great optimism about the future of the European project to which of course the reform of higher education across the continent has made a major contribution Today for the present that optimism has faded as economic troubles have accumulated in the Euro zone political tensions have been increased on issues such as immigration and armed conflict has broken out in Ukraine There is clearly a risk that against this troubled background the Bologna process itself may falter There are already signs that it has been downgraded in some countries with evidence of political withdrawal All the more reason for the voice of higher education researchers to be heard Since the first conference they have established themselves as powerful stakeholders in the development of the EHEA who are helping to maintain the momentum of the Bologna process Their pivotal role has been strengthened by the second Bucharest conference Peter Scott
