Platonic Transformations Modern And Postmodern Retrievals:

Platonic Transformations Adriaan Theodoor Peperzak, 1997 Against the widespread antiplatonism of our century noted philosopher Hegel and two great postmodern thinkers Heidegger and Levinas transform Plato's thoughts about reality truth and the Good into elements of their own reflection He then presents his own retrieval of Platonic themes and arguments showing how fruitful a critical reexamination of Plato's work can be even today Anyone interested in continental philosophy phenomenology ethics or the history of philosophy should read this book **Whitaker's Books in Print**, 1998

Reforming the Church before Modernity Christopher M. Bellitto, 2016-04-08 Reforming the Church before Modernity considers the question of ecclesial reform from late antiquity to the 17th century and tackles this complex question from primarily cultural perspectives rather than the more usual institutional approaches The common themes are social change centres and peripheries of change monasticism and intellectuals and their relationship to reform This innovative approach opens up the question of how religious reform took place and challenges existing ecclesiological models that remains too focussed on structures in a manner artificial for pre modern Europe Several chapters specifically take issue with the problem of what constitutes reform reformations and historians notions of the periodization of reform while in others the relationship between personal transformation and its broader social political or ecclesial context emerges as a significant dynamic Presenting essays from a distinguished international cast of scholars the book makes an important contribution to the debates over ecclesiology and religious reform stimulated by the anniversary of Vatican II **Thinking about Thinking**

Adriaan Theodoor Peperzak, 2012 This essay in metaphilosophy aims at showing that philosophy is indeed a conversation by clarifying many if not all features that determine the philosophical practice as provocative responsive dialogical communitarian educational and transformative Since philosophical thought is also rooted in a dimension of faith this basic relation is made explicit and concretized through analyses of a particular form of interaction between faith and philosophy

American Catholic Philosophical Quarterly, 2004 **Body and Identity** Angela Franks, 2025-08-15 Angela Franks provides a sweeping intellectual history of identity particularly in terms of how identity relates to the body with an emphasis on the importance of Christianity to this understanding Modern questions about our bodies and how we see ourselves are often complex and problematic To better answer these contemporary questions and navigate identity politics Angela Franks seeks to provide a better understanding of identity She begins by giving three basic meanings of the term identity through time the true or authentic self and our awareness of ourselves She engages with thinkers from antiquity to present day and investigates the decisive developments that Christianity provided Within Christianity came a new awareness of the distinctive individuality of each person the true self called by God in a way that often breaks away from the solid or fixed structures of identity formation such as family class and nation This more liquid idea of identity continues to evolve in modern times though without its theistic emphasis on God's call The result is a purely liquid self that consists of consciousness and activity

but without a grounded self that is either the object or the subject of consciousness This is the empty self we have today one that is given much more to do and less to be A comprehensive history of identity Body and Identity brings the theological history of the self to the forefront in order to address the empty self and how identity is defined today

The Future of Theology Miroslav Volf, Carmen Krieg, Thomas Kucharz, 1996 This is a print on demand book and is therefore non returnable Perhaps no other theologian of the second half of this century has shaped theology so profoundly as has Jürgen Moltmann He appeared on the world theological scene with his Theology of Hope 1964 and took most of its capitals by storm His subsequent works have kept him at the forefront of the modern theological enterprise and the power of his vision and the originality of his method have inspired a host of new theologians In terms of fecundity Moltmann's opus remains unmatched among his generation of theologians More than 130 dissertations written so far on his thought most of them in the past decade testify eloquently to its continued attractiveness In honor of Moltmann's 70th birthday twenty six of the world's leading theologians his friends colleagues interlocutors and former students have contributed to this volume on the future of theology Moltmann himself has always sought to be both contemporary and future oriented his theology can be viewed as an exercise not only from the perspective of God's future but also toward a new human future Thus a book on the future of theology takes up an aspect of his theme and his concern Yet this volume also makes a significant contribution to theology in its own right seeking as it does to address the present crisis of theology As Miroslav Volf writes in his introduction On the threshold of the third millennium the presumed queen of sciences has grown old and feeble unable to see that what she thinks is her throne is just an ordinary chair uncertain about what her territories are and confused about how to rule in the realms she thinks are hers seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king and ending up with a divided even schizophrenic mind The essays in this volume attempt to revitalize theology as it confronts a difficult future Despite the formidable obstacles that threaten the very survival of theology in the next century religious and cultural plurality the marginalization of theology in public discourse increasing abstraction in the practice of theology pressing issues of gender race poverty and ecology the seemingly archaic voice of theology in post Christian societies the contributors to this volume all believe in the future of theology as a vibrant discipline The Future of Theology is organized in three parts Challenges deals with the external or internal problems that theology is facing Perspectives offers proposals on how to meet the challenges Themes concentrates on various issues that need special attention today Together these essays succeed in setting the theological agenda for the future of theology and thereby serve as a fitting tribute to this volume's esteemed honoree Contributors Stanley Hauerwas Elisabeth Moltmann-Wendel John B Cobb Jr James H Cone D Lyle Dabney Ingolf U Dalferth Gustavo Guti rrez Douglas John Hall Ellen T Charry M Douglas Meeks Johann Baptist Metz Konrad Raiser Wolfhart Pannenberg Paul Ricoeur John Howard Yoder Dietrich Ritschl Dorothy S le Jon Sobrino Elsa Tamez Geoffrey Wainwright Rosemary Radford Ruether Miroslav Volf Michael Welker Nicholas Wolterstorff Catherine Keller Huns K ng

The Poverty of Radical Orthodoxy Lisa Isherwood, Marko Zlomislíć, 2012-09-21 Radical Orthodoxy whose founding father is John Milbank claims that God has been pushed to the margins in modernity and that a false and misleading neo theology has taken hold that needs to be revisited and contested It is this return to the premodern that often leads theologians to have reservations about Radical Orthodoxy when they might otherwise have some sympathy for many of its positions Radical Orthodoxy like most traditional theology claims that the power of God is in all creation and that God sits everywhere for all to partake of But there appears to be a failure to see that the church and theology do not set in place systems that live out this basic assumption Liberation theology while sharing much of the same assumption that God is everywhere and to be shared at the same time engages in a critique of the structures that claim to facilitate this vision and finds them wanting From here then liberation theologians attempt to refigure our understanding of shared power in order to broaden the vision while it may be argued that Radical Orthodoxy simply restates the assumption with little political critique of the issues Perhaps this point explains why this book is titled The Poverty of Radical Orthodoxy rather than Radical Error
