Investing in Movies Joseph N. Cohen, 2021-12-30 In this second edition of *Investing in Movies* industry veteran Joseph N. Cohen provides investors and producers with an analytical framework to assess the opportunities and pitfalls of film investments. The book traces macroeconomic trends and the globalization of the business including the rise of streamers as well as the impact these have on potential returns. It offers a broad range of guidelines on how to source interesting projects and advice on what kinds of projects to avoid as well as numerous ways to maximize risk-adjusted returns. While focusing primarily on investments in independent films, Cohen also provides valuable insights into the studio and independent slate deals that have been marketed to the institutional investment community. As well, this new edition has been updated to fully optimize the current film industry climate including brand new chapters on the Chinese film market, new media streaming services, and the effects of COVID-19 on the global film market. Written in a detailed and approachable manner, this book is essential for students and aspiring professionals looking to gain an insider perspective against the minefield of film investing.

One Opinion in 8 Billion Thom Gordon, 2025-08-18 *One Voice One Vision One Opinion in 8 Billion* In a world of noise, division, and endless opinion, *One Opinion in 8 Billion* is an individual perspective that cuts through with clarity, curiosity, and courage. This is not just another non-fiction book; it is a bold, unapologetic exploration of life's most pressing, provocative, and perplexing questions. Across sixteen chapters, author Thomas Gordon tackles 335 controversial questions spanning politics, religion, media, science, identity, war, and beyond. Each is presented without filters or agenda, challenging you to think, reflect, and decide for yourself. But that's just the beginning. The book also delves into 34 of the most talked-about conspiracy theories, not to preach belief but to investigate, analyze, and weigh the evidence. From ancient mysteries like the Pyramids and the Anunnaki to modern controversies surrounding global events, you'll find balanced examinations paired with the author's personal conclusions. For readers drawn to the frontiers of science, Gordon presents five original physics hypotheses, thought experiments designed to question the limits of our current understanding and bridge the gap between general relativity and quantum mechanics. These sections challenge the status quo of scientific thinking while remaining grounded in logical reasoning. The book closes with something rare: a call to action. You'll find a published open letter to every world leader and a five-year Global Unity Business Plan, a vision for practical steps towards international cooperation, environmental sustainability, and peace. Whether you agree, disagree, or find yourself somewhere in between, *One Opinion in 8 Billion* refuses to leave you indifferent. It's for the reader who wants to explore complex issues from multiple angles, values independent thinking over echo chambers, believes curiosity is more powerful than certainty, welcomes the discomfort of having their assumptions challenged, and inside you'll explore provocative questions on society, morality, and the future of humanity. The facts, theories, and debates behind enduring conspiracies, ground-breaking ideas in physics and cosmology, a vision for a united, cooperative, and compassionate world. This is not a book that tells you what to think. It is a book that dares you to think for

yourself Whether you read it cover to cover or dip in at the topics that matter most to you One Opinion in 8 Billion is a challenge an invitation and a conversation all in one A minimum of 10% of all profits will be donated to charitable causes referenced in the book meaning your purchase also supports real world change In a planet of eight billion perspectives here is one distilled considered and ready for you to examine The question is What s yours **Broadcasting & Cable** ,2008
