

# Project Management Framework

Initiation	Planning	Execution	Performance Control	Closure
Project managers work with other concerned stakeholders to evaluate and determine the value and feasibility of the project.	Scope, schedule, budget, resources, and risks are discussed in this phase to develop a perfect project plan.	Project executives follow the developed plan in this stage to keep the development process smoother.	Project execution process gets evaluated in this phase by means of KPIs like project objectives, quality deliverables, cost monitoring, overall project performance, etc.	The promised project deliverables are handed over to the client for validation. A final closure meeting is also held to discuss the overall experience and to close all project accounts.

Dies führte zur Entwicklung des vorliegenden vereinheitlichten Projektmanagement Referenzmodells dem Unified Project Management Framework UPMF. Das Modell enthält im Kern Prozesse, Disziplinen und Rollen ergänzt um Erfolgsfaktoren, Kompetenzen und Methoden.
