*Proletarianization and Class Struggle in Africa* Bernard Magubane, Georges Nzongola-Ntalaja, 1983     The Congo from Leopold to Kabila Georges Nzongola-Ntalaja, 2002-02 As this book shows the People of the Congo have suffered throughout the past century from a particularly brutal experience of colonial rule and a series of post independence political conflicts But as this insightful political history of the Congolese democratic movement of the 20th century decisively makes clear its people have not taken these multiple oppressions lying down Instead they have struggled both to establish democratic institutions at home and to free themselves from exploitations abroad     **Transnational Labour History** Marcel van der Linden, 2017-07-05 There has been a growing recognition amongst scholars that labour historians need to look beyond national borders in order to place the history of the working classes into a much broader context than has hitherto been the case Whilst studies focused on individual countries are essential it is only by comparing and contrasting the experiences across time and space that a true understanding of the subject can be attempted Professor Marcel van der Linden has contributed much to the debate on cross border processes and comparisons This volume makes available in English a collection of twelve of his most important essays on the theme of transnational labour history Previously published in a range of journals and volumes with two original contributions Transnational Labour History brings them together in a single convenient collection together with a new introduction This work will undoubtedly provide an invaluable resource for all students of European labour history     Popular Struggles for Democracy in Africa Peter Anyang' Nyong'o, 1987 Democracy in Africa by Harry Goulbourne     *Pseudocapitalism and the Overpoliticized State* S. N. Sangmpam, 1994 Using Zaire as a representative of African and Third World countries Sangmpam provides both a critique and an alternative view of the theory of the African state     Cutting Edge Jim Davis, Thomas Hirschl, Michael Stack, 1997 The rapid expansion of laborless production systems creates enormous instability Money previously paid in wages is spent on technology Workers lose jobs to robotic intelligence and therefore have no money to buy the goods produced by the technology CUTTING EDGE provides an up to the minute analysis of the complex relations between technology and work and how jobs and living standards can be protected     Zeitschrift für Sozialgeschichte des 20. und 21. Jahrhunderts , 1999     Einführung in die afrikanische Philosophie Christian Neugebauer, 1989     **Contemporary Marxism** , 1983     **Politics and Society in Contemporary Africa** Naomi Chazan, 1992 Africa has undergone significant political economic and social change since 1988 Now revised and updated this book includes current economic social and political data as well as new sections on the dismantling of apartheid civil society democratization     **Africa Today** , 1983     *Reclaiming Development Studies* Murat Arsel, Anirban Dasgupta, Servaas Storm, 2021-06-08 The mission relevance and intellectual orientation of development studies is increasingly challenged from various fronts such as decoloniality global development and randomized control trials The essays featured in this collection together argue for the need of the field to reclaim its critical political economy tradition

Building on the contributions of Ashwani Saith the contributions touch upon many of the central questions of development studies centred around structural change labour and inequality Canadian Journal of African Studies ,1984 Class Struggle in Africa Kwame Nkrumah,1970 **Abstracts Journal of the African Studies Centre Leiden** Rijksuniversiteit te Leiden. Afrika-Studiecentrum,1985 **Africa** Barry Munslow,1986 Appraisal of the obstacles to and failures in the transition to socialism in Africa south of Sahara considers the causes for the adoption of Marxism as a political doctrine looks at contemporary Marxist political partys national liberation movements and socialist states analyses the role economic role of women incl Rural women and their womens organizations contribution to social change includes case studies of Angola Cape Verde Guinea Bissau and Mozambique References statistical tables African Sociology Bernard Magubane,2000 The sociological and political writings of Bernard Makhosezwe Magubane on African political history political economy and political philosophy constitute a vital portion of a monumental legacy to later generations by an African intellectual who came to maturity through an historical consciousness that emerged during the 1960s This was a period characterized by the radical contentious philosophies of history African marxism African nationalism and the reactionary ideologies aligned with imperialism and colonialism The essays of Bernard Makhosezwe Magubane stand at a fascinating intersection with the intellectual systems of Frantz Fanon H I E Dhlomo Ngugi wa Thiong o and Amilcar Cabral They are first and foremost what Cabral and Fanon were clamoring for an instrumentarium of the construction of a progressive African ideology or African ideologies What enabled them to realize this remarkable breakthrough is that they are a continuation of the revolutionary thought of Fanon and Cabral Magubane was among the first African academic scholars to have seen the historical significance of Fanon and Cabral respectively in the mid 1960s and in the early 1970s Written in exile during the exile period in South African intellectual and cultural history these essays until recently were not easily historically locatable within the genealogical structure of South African intellectual traditions Undoubtedly this had been due to the political philosophy of apartheid and its ideological manifestations **Our Socialism** ,1983 **Namibia, the Broken Shield** Kaire Mbuende,1986 *American Indian Quarterly* ,1988
