Prophetic Realism The Limits Of Pacifism In An Age Of Terror:

Religion and the Realist Tradition Jodok Troy, 2013-09-11 This volume picks up a rather uninvested field of international relations theory the influence of religion on Realism as well as the power of Realism to address religious issues in world politics Although classical scholars of Realism rarely mention religion explicitly in their well known work this volume suggests that Realism offers serious ground for taking religion and faith into account as well as evaluating the impact of religion on its theoretical framework how religion and religious worldviews influence and affect the theoretical framework of Realism and how Realism approach religious issues in international relations as a relatively new field of international studies Although international relations scholars now widely deal with issues of religion large portions of the theoretical underpinning are missing In addressing this lack the volume illustrates the possibility of reform and change in Realism Furthermore the chapters reach out to normative statements The contributors offer a theoretical view on religion in international relations in the context of Realism but always connect this with actual real world related political problems The volume takes into account not only classical thinkers and approaches of Realism but also present day authors dealing with ethical and normative questions of international relations in the aftermath of 9 11 Offering a fresh perspective on the influence of religion on international relations theory this work will be of great interest to scholars of religion and international relations international relations theory and political philosophy [An Introduction to Christian Ethics](#) Robin W. Lovin, 2011 Introduces Christian ethics to a new generation of students **Applied Christian Ethics** Matthew Lon Weaver, 2014-09-09 Applied Christian Ethics addresses selected themes in Christian social ethics The book is divided in three parts In the first section Foundation several contributors reveal their Christian realist roots and discuss the prophetic origins and multifarious agenda of social ethics Thus the names of Reinhold Niebuhr and Paul Tillich come up frequently In the second section Economics and Justice the focus turns to the different levels at which economics has significance for social justice These chapters discuss fair housing at the local level the dialogue between Christians and Native Americans over property rights at the regional and national levels and trade and international organization In the third and final section Politics War and Peacemaking the content ranges from the existential experience of a soldier to that of a veteran of civil rights activism from theorizing about peacemaking to commenting on the use of drones **Joyce in the Belly of the Big Truck; Workbook** Joyce A. Cascio, 2005-05 *Journal of the Society of Christian Ethics*, 2008 **Prophetic Realism** Ronald Stone, 2005-11-07 After September 11 2001 ordinary citizens faced a new world ruled by political and religious machinations against the threat of terrorism While political leaders pursued a policy of militarism many religious leaders advocated pacifism Ronald H Stone advocates a middle road between these two extremes what he calls prophetic realism Taking up Reinhold Niebuhr's notion of Christian realism Stone argues that our current situation calls for hard answers to hard questions Stone offers compelling evidence that Jesus provides the prophetic model of our interaction with our enemies
