Sharan B. Merriam

Researching Education Data Methods And Theory In Educational Enquiry:

Researching Education David Scott, Robin Usher, 2010-12-16 This book examines the philosophical historical political and social contexts of research and the implications of these for the collection and analysis of data

Researching Education David Scott, Robin Usher, 2010-07-15 This volume is a study of the theory and practice of researching education It examines the philosophical historical political and social contexts of researching and the implications of these for the collection and analysis of data The authors argue that power is ever present in the construction of research texts and this is inevitable as research imposes a closure of the world through representation and thus is always involved with and implicated in the operation of power The book addresses such fundamental questions as What is legitimate knowledge What is the relationship between the collection and analysis of data and How does the researcher's presence in the field affect his or her data Divided into three sections the book reviews the philosophy of research the strategies and methods of research and the issues involved in research The authors present the reader with a balance of theory and practice providing case studies examples and tables to support and illustrate their arguments

Researching Education David Scott, 2003 **Researching Education** David Scott, Robin Usher, 1999 This volume is a study of the theory and practice of researching education It examines the philosophical historical political and social contexts of researching and the implications of these for the collection and analysis of data The authors argue that power is ever present in the construction of research texts and this is inevitable as research imposes a closure of the world through representation and thus is always involved with and implicated in the operation of power

PERSONAL COPY: Researching Education: Data Methods and Theory in Educational Enquiry David and Usher Scott (Robin), 2011

Research Methods in Educational Leadership and Management Ann R J Briggs, Marlene Morrison, Marianne Coleman, 2012-07-06 The essential guide to research in educational leadership and management substantially revised and updated

EBOOK: Doing your Research Project in the Lifelong Learning Sector Jonathan Tummons, Vicky Duckworth, 2012-10-16 This book guides student researchers through the different stages of small scale or practitioner research a common component of study for students training to work in the lifelong learning sector The authors look at the entire research journey from planning a research topic and framing research questions through the process of data collection and analysis to writing up and presentation Using a step by step approach the book tackles common thorny issues such as Understanding the different genres of research Discussion of qualitative and quantitative approaches to research The importance of forming research questions and of locating them within current research literature How to do a literature review Dealing with permissions access and ethics The nuts and bolts of research methods Interpreting data and writing up research findings Together with case studies and examples of real life research projects that have been completed by the authors own students this book tackles research in a student friendly and accessible style carefully unpacking and defining the different terms concepts and theories that students need to know when

beginning research for the first time This book is essential reading for students who are training to work in the lifelong learning sector or practitioners who are undertaking CPD to maintain their license to practice Many teachers training in the lifelong learning sector as well as those going on to do foundation honours and masters degrees in education find the prospect of carrying out educational research for the first time daunting Thus far they have been reliant on generic educational research textbooks Jonathan Tummons and Vicky Duckworth's excellent work now guides them clearly and supportively through the research journey in a way which is underpinned by the authors' deep understanding of both the sector and nature of the challenge of the research task to the student using an informal and accessible written style Andy Armitage Head of the Department of Post Compulsory Education at Canterbury Christ Church University UK This book combines sound practical advice with an exploration of the philosophical and methodological concepts underpinning educational research Often drawing on the authors' own experiences it makes a convincing case for the practitioner as researcher and draws clear and appropriate attention to the purposes, uses and dissemination of small scale research Susan Wallace Professor of Continuing Education Nottingham Trent University UK
