Monetary Fund. External Relations Dept.,1985-12-01 This paper elaborates the introduction of surveillance that gave the IMF broader responsibilities with respect to oversight of its members policies than existed under the par value system The IMF's purview has been broadened under the new system but by the same token its members are no longer obliged to seek its concurrence in changes in exchange rates The continuing volatility of exchange rates and their prolonged divergence from levels that appear to be sustainable over time have been matters of growing concern **Industries in Trouble** Robert Plant,1981 Textbook and teaching and training material on the problems of structural unemployment redundancy in industries affected by a decline in demand examines the case of selected industries in various OECD countries and suggests possible adjustment assistance responses to the challenge of new inventions production methods technological change competition and patterns in the international division of labour References *Managing Restructuring in the Textile and Garment Subsector* Saha Dhevan Meyanathan,1994-01-01 Summary edition The full report analyzes the issues affecting income security for the elderly in both developing and industrial nations Systems providing financial security for the old are under increasing strain throughout the world Changing demographics have led to an increased proportion of old people in the general population Traditional means of support for the old such as extended families are weakening Meanwhile formal systems such as government backed pensions have proven unstable For these reasons economists policymakers and government officials are exploring ways to address such issues as How to ensure financial security for the old and the best ways of paying for such security The roles of the public and private sectors when systems are used to enhance rather than detract from economic growth This study the first comprehensive and global examination of old age security addresses such issues It identifies three functions of old age financial security programs redistribution saving and insurance It evaluates the policy options for meeting these functions using two criteria their impact on the aged and their impact on the economy as a whole The study suggests that financial security for the old and economic growth would be better served if governments relied on three systems 1 A publicly managed system with mandatory participation and the limited goal of reducing poverty among the old 2 A privately managed mandatory savings system 3 A voluntary savings system These three systems would ensure against the many risks of old age The study concludes that a combination of different income security policies is more effective than any single approach and that all countries should begin planning for their aging populations now Published for the World Bank by Oxford University Press Also available Averting the Old Age Crisis Full report ISBN 0 19 520996 6 Stock No 60996 Averting the Old Age Crisis Spanish edition ISBN 0 8213 2844 1 Stock No 12844 Averting the Old Age Crisis Database diskettes ISBN 0 8213 3032 2 Stock No 13032 Averting the Old Age Crisis Summary French ISBN 0 8213 3001 2 Stock No 13001 Averting the Old Age Crisis Summary Spanish ISBN 0 8213 2971 5 Stock No 12971 Widening Income Distribution in Post-Handover Hong Kong Hon-Kwong Lui,2013 Before the handover to China in 1997 Hong Kong's economic growth was very strong and the unemployment rate dropped to a record low of 2.2 per cent In recent years the widening

income dispersion in Hong Kong has caught public attention This book investigates the economic development and changes in income distribution of Hong Kong from different perspectives Based on latest empirical evidence of Hong Kong the book examines the relationship between economic restructuring and rising income disparity Public housing programmes in Hong Kong affect half of the population directly and the other half indirectly This book assesses the redistributive effect of public rental housing on income distribution Moreover Hong Kong embarked on an ambitious expansion programme of tertiary education in 1989 The expansion represents an exogenous increase in the supply of university graduates and the book evaluates the impact on income distribution It also investigates the income dispersion among and between natives and immigrants Researchers politicians and policy makers should be interested to learn about the causes of rising income dispersion in post handover Hong Kong uncovered in this book Although economic restructuring is named as the prime suspect that caused rising income inequality the empirical evidence proves otherwise The book will be of interest to policy makers whose work has implications for social security systems and income disparity
