Rethinking Europe Social Theory And The Implications Of Europeanization:

Rethinking Europe Gerard Delanty, Chris Rumford, 2005 **2006/2007** , 2011-09-15 Die seit 1971 wieder erscheinende interdisziplinäre internationale Rezensionbibliographie IBR ist eine einmalige Informationsquelle. Die Datenbank weist über 11 Millionen vornehmlich der Geistes und Sozialwissenschaften berücksichtigende Buchrezensionen in 6 000 vorwiegend europäischen wissenschaftlichen Zeitschriften nach. 60 000 Eintragungen kommen jedes Jahr hinzu. Bieten dem Benutzer Daten zum rezensierten Werk und zur Rezension The European Neighbourhood Policy in Perspective R. Whitman, S.

Wolff, 2010-04-09 Contributors offer new approaches to the study of the European Neighbourhood Policy. While the main emphasis is on the empirical assessment of the impact that the ENP has had to date and on the factors that have shaped its implementation, it also provides new theoretical and methodological perspectives on how to study this policy area.

European Integration, Processes of Change and the National Experience S. Börner, M. Eig Müller, 2015-06-02 In order to better understand processes of European integration, this book offers a new perspective that compares past experiences of change to current transitional moments at the European level. It addresses key questions about European society, EU integration and social change to reveal the social construction of emergent polities and societies **Cosmopolitan**

Government in Europe Owen Parker, 2013-04-26 The invocation of the market has been omnipresent in media discussions of crisis Europe. On the one hand, the market is presented as that to which EU member states must collectively respond. It is the very purpose of a post-national government and that which dictates individual and collective identities. The expansion of the market is that which guarantees and constitutes peace in Europe. On the other hand, the market is that which government must seek to tame. It is the servant of government and ought not be permitted to undermine collective identities and solidarities associated with the juridical imaginary of social contract and sovereign nation-state. It is from this perspective the expansion of the social institutions of nation-state into the post-national arena that will constitute a lasting peace in Europe. *Cosmopolitan Government in Europe* uses a Foucauldian lens to consider the ethics of the scholarly and institutional discourses associated with these apparently divergent market and legal cosmopolitan visions of Europe. It reflects on attempts to reconcile or move beyond these discourses, particularly through the invocation of more pluralist modes of governance, but claims that such moves have been largely unsuccessful in both practice and theory. It argues that the very ambiguity in the relationship between the ideal subjects that these market and legal visions promote, respectively post-national entrepreneur and citizen, is that which permits a space for resistance and politics. Thus the book argues for a pragmatic politics which is cognizant of the violent potential inherent in any cosmopolitan attempt to govern Europe while recognising the contemporary dangers associated with the dominance of a market cosmopolitan Europe. This work is an important and timely intervention in contemporary debates about democratic Europe and its shortcomings and will be of great interest to scholars of international political theory, European studies and international political economy Europe

and World Society Chris Rumford, Didem Buhari-Gulmez, 2017-10-02 Europe and World Society offers a distinctive critical approach to understanding European transformations exploring both the progress and limitations of integration on various key policy areas such as agricultural policy education reform migration and external relations as well as the relationship between European regionalism and globalization Due to its innovative theoretical framework based on macro perspectives including World Polity Theory developed by Stanford sociologist John W Meyer this collection contributes to both the recent sociological turn in European studies and to the constructivist critiques of rational choice accounts of modern Europe At a time when the European integration project has been severely challenged by multiple economic political and social crises this book offers a timely global perspective that sheds light on the dynamism and multiplicity of the actors discourses and processes which underlie contemporary Europe The book's distinctive global approach allows it to move the debate beyond state and EU centrism and establish the missing link between Europe and its global context This book was published as a special issue of the Journal of Contemporary European Studies

Literature for Europe? Theo d'. Haen, 2009 In Literature for Europe leading scholars from around Europe reflect on the role played by literature and by the study of literature in the constant re negotiation and re construction of cultural identities in Europe implied by the accession to the European Union in the early years of the twenty first century of fifteen new member states with the accession of a number of Balkan states impending and Turkey waiting in the wings while at the same time transatlantic relations of the EU to the USA are hotly debated in politics as in culture China and India awake as economic giants and globalization is upon us At the same time two of the earliest signatories to the treaties eventually leading to the European Union rejected a proposal for a European Constitution and linguistic religious and ethnic dividing lines show even in some of Europe's oldest nation states How do literary texts genres and forms thinking about them and teaching them respond to and shape ongoing processes of European self understanding in our era of globalization The volume seeks to answer these questions by charting key developments in a number of fields crucial to the emergence of a European common literary space literature and cultural value systems literature and cultural memory literary history translation the impact of the new media and the information age on matters of literature and identity and the impact of the postcolonial Literature for Europe is a thought provoking tour d horizon of cutting edge developments in the relationship between literary studies and the matter of Europe and suggesting an exciting agenda for literary studies in Europe It will be of interest to everyone working in European studies and or European literature

Routledge Handbook of European Borderlands James W. Scott, Thomas M. Wilson, 2025-10-31 The Routledge Handbook of European Borderlands revisits and reassesses the concept of borderlands in Europe balancing case specific perspectives with rich theoretical and conceptual avenues of research The significance of the transformations after the fall of the Soviet Union made European borders central to the emergence of border studies as an emerging field of study and since then the financial crisis rising migration Brexit and the Covid 19 pandemic have continued to make European borderlands a focus of research national and international policy media and everyday concern Bringing together a wealth of cross cutting and empirically rigorous international scholarship the handbook investigates European borderlands as spaces of encounter and political social and cultural change This book depicts borderlands as both fundamentally relational and ambiguous products of fanciful geographical imagination as well as real and lived places in which communities engage in different forms of integration differentiation and contestation at many levels of political economic geographic and social interaction Drawing on a range of different disciplinary perspectives the handbook covers key topics such as security migration social inequality and justice cross border governance cooperation and development environmental threats health and disease and conflicts over citizenship sovereignty and territory This handbook provides the perfect guide to understanding the multilayered complexities surrounding borderlands and as such will be of interest to researchers across the fields of geography politics migration studies international relations anthropology sociology tourism cultural studies and European studies

Europeans and the Media Andrea Miconi, 2024-08-13 This book investigates the relationship between the process of Europeanization the expected rise of a common culture and the role played by the media in the different regions Drawing on a comparative model the analysis is structured around frameworks related to the action of the media in shaping national identities to the world system theory based on the hierarchization of geographical spaces and to the regional patterns identified in scientific literature The analysis draws on data collected from numerous markets and across a variety of media formats to detect the geographical pattern that results from the diffusion of different technologies and cultural contents the national the regional the European and the global This nuanced and insightful volume will interest students and scholars in the field of communication studies European studies and comparative media studies The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial CC BY NC 4.0 license

The Spatialities of Europeanization Alun Jones, Julian

Clark,2010 Europeanization is increasingly fashionable in the social sciences as a research focus as well as a backdrop for studies of the European Union and its relations with its member states However to date there is little consensus among the scholarly community over what Europeanization is or how it should be analyzed Spatialities of Europeanization is the first work to comprehensively analyze contemporary research across the social sciences and humanities in order to bring together critically informed and previously unconnected contributions on this vital topic The authors identify unexplored communalities between these different research traditions as well as shedding light on its neglected geographical and spatial dimensions which they argue are critical to understanding Europeanization in the 21st century This book reflects a strong conceptual approach which is supported by detailed empirical materials drawn from interviews with policy elites at supranational national and regional levels in the EU who are engaged in short medium and long term EU policy planning and management Offering fascinating empirically grounded insights into why Europe's governance must now become more transparent and accountable to its 500 million citizens this book will appeal to scholars and researchers in the fields of Political Science International and European Studies *Archiv für Sozialgeschichte*,2011 *Die Presse des Sozialismus ist schlimmer als der Sozialismus* Paulina Gulińska-Jurgiel,2010 **Globalisierung, Europäisierung, Regionalisierung** Bálint Balla,Anton Sterbling,2009 **Cosmopolitanism and Europe** Chris Rumford,2007 Europe's ongoing transformation has prompted the emergence of cosmopolitanism as a particularly relevant lens through which to analyze European politics and society As the European Union grows in size its member states are increasingly occupied with responsibilities that extend beyond their narrow national interests This timely book with contributions from Ulrich Beck Daniele Archibugi and Gerard Delanty persuasively argues that cosmopolitan perspectives are vital to the study of contemporary Europe *Deutsche Gewerkschaften und europäische Integration im 20. Jahrhundert* Jürgen Mittag,2009 **Europeanization in the Twentieth Century** Martin Conway,Klaus Kiran Patel,2010-10-29 This book presents a multi authored study of europeanisation across the twentieth century from the First World War to the present day Der Wert des Kulturerbes für die Gesellschaft Ferdinand von Saint André-von Arnim,2007 Eurostars and Eurocities Adrian Favell,2008-02-11 Eurostars and Eurocities Free Movement and Mobility in an Integrating Europe examines intra European Union migration in the cities of Amsterdam London and Brussels Based on sixty in depth interviews of free moving European citizens and more than five years of ethnographic and documentary research it uncovers the rarely studied human dimension of European integration Examines the mobility lifestyle and career opportunities created by the borderless society of the European Union as well as the barriers that still persist Analyses the new migration trends challenges to the welfare state and forms of urban cosmopolitanism linked to processes of European integration Access to Social Europe Nicholas Moussis,2007 The 5th edition of this publication has been completely revised and updated and provides a comprehensive analysis of the major political and legislative developments that have occurred in the social sector since the establishment of the Common Market

The publication is divided into eight chapters introduction to European social policy the economic and social cohesion of the Union freedom of movement of workers freedom of establishment and recognition of qualifications common employment policy education vocational training and youth policies common measures for improving living and working conditions and appraisal and outlook of the common social policy Each chapter contains a significant number of references to Official Journal texts as well as an annex providing full texts of all the important legal acts mentioned therein It is intended for human resource managers trade union representatives lawyers government officials trade association executives consultants academics and international organisations
