## **Rethinking New Testament Textual Criticism:**

**Rethinking New Testament Textual Criticism** David Alan Black, 2002-10-01 New Testament textual criticism is an important but often overlooked field of study. Results drawn from textual studies bear important consequences for interpreting the New Testament and cannot be ignored by serious students of Scripture. This book introduces current issues in New Testament textual criticism and surveys the various methods used to determine the original text among variant readings. These essays from Eldon Jay Epp, Michael Holmes, J. K. Elliott, Maurice Robinson, and Moisés Silva provide readers with an excellent introduction to the field of New Testament textual criticism. **A Student's Guide to Textual Criticism**

**of the Bible** Paul D. Wegner, 2006-03-09 In plain language and with ample illustration, Paul D. Wegner presents an overview of the history and methods, aims and results of textual criticism of the whole Bible: the Hebrew Old Testament and the Greek New Testament. You will gain an appreciation for the vast work that has been accomplished in preserving the text of

Scripture and find a renewed confidence in its reliability. **Rethinking New Testament Textual Criticism** David Alan Black, 2002-10 In this concise guide, leading scholars survey the discipline and present three current approaches to determining the text of the New Testament. **Perspectives on New Testament Textual Criticism** Eldon Jay

Epp, 2005-06-01 This collection of frequently cited articles and chapters published from 1962 to 2004 provides perspective on the history and development of New Testament textual criticism, with descriptions and critique of the major textual theories and methods. Specific manuscripts and text types such as the Codex Bezae and the D text are discussed, as well as issues such as anti-Judaic tendencies, the ascension narratives, and the relationship of text and canon. Many of the essays from the last fifteen years emphasize the earliest period and papyrus manuscripts, particularly those found at Oxyrhynchus, and assess their socio-cultural and intellectual contexts, while articles from the last five years advocate or engage the more controversial aspects of current New Testament textual criticism, especially the issue of original text. *Textual Criticism*

*and the New Testament Text* Eberhard W. Götting, 2020-09-25 The fruit of more than three decades of research, this collection of fourteen essays by Eberhard W. Götting covers important aspects of editorial science, with a particular focus on New Testament textual criticism. Essays cover textual emendation, textual critical procedures, literary criticism, history of scholarship, advantages and disadvantages of online manuscripts, and textual critical studies of words and phrases. The addition of a substantial introduction to textual criticism makes this a valuable resource for students and teachers. Features: Essays concerned with establishing the original text of New Testament writings. Nine essays published in English for the first time. Two previously unpublished essays. **Changing the Goalpost of New Testament Textual Criticism** Abidan Paul

Shah, 2020-10-02 Before the 1960s, the goal of New Testament Textual Criticism was singular: to retrieve the original text of the New Testament. Since then, the goalpost has incrementally shifted away from the original text to retrieving any text or many texts of the NT. Some scholars have even concluded that the original text is hopelessly lost and cannot be retrieved with

any confidence or accuracy Other scholars have gone a step further to claim that the idea of an original text itself is a misconception that needs to be abandoned If this new approach in NTTC is correct then the authority of Scripture is weakened or no longer valid It will be shown in this book that such is not the case Furthermore emphasis will be placed on the need to return to the traditional goalpost of NTTC i e to retrieve the original text Without a generally definitive text the door will be left wide open to recreate any desired text of the NT An unsettled original text will result in an unsettled biblical theology due to a lack of any authoritative and standard text Consequently it will lead to an unsettled Christian faith and practice

*Apostelgeschichte Als Kirchengeschichte* Tobias Nicklas, Michael Tilly, 2003 The remarkably complex textual traditions of the Acts of the Apostles reflect the theological developments and socio cultural framework of early Christianity The present volume contains studies of textual witnesses textual traditions and translations of the Acts They do not only focus on the traditions which occur in the manuscripts or on the theological tendencies of the major ancient versions and their reception in the Early Church but also consider the relevance of mostly neglected witnesses such as amulets and tablets and the relationship between the ancient translators and Jewish exegetical traditions

**The Text of the Gospels in Clement of Alexandria** Carl P. Cosaert, 2008 This volume applies the latest methodological advances in patristic textual analysis to explore the nature of the Gospel text used by Clement an early Alexandrian father who wrote extensively on the Christian faith and filled his writings with thousands of biblical citations After examining Clementa TM s life and use of the New Testament writings the book lists all of his quotations of the Four Gospels and compares them to those of other Alexandrian Christians and to the most significant ancient Greek and Latin manuscripts The book demonstrates that the form of the Gospels in Alexandria was in transition at the end of the second century and argues that Clementa TM s Gospel text reveals an Alexandrian influence in John and Matthew and a stronger Western influence in Luke and his citations of Mark 10 Paperback edition is available from the Society of Biblical Literature [www.sbl-site.org](http://www.sbl-site.org)
