Residential Environments Choice Satisfaction And Behavior:

Residential Environments Juan I. Aragones, Guido Francescato, Tommy Gärling, 2002 Housing fulfills a basic human need for shelter It protects us from the weather and from hostile intruders Often it is an expression of personal identity and social status A home is a major personal financial investment and housing is an important part of the economy The home is also invested with profound psychological and social meaning It helps meet our needs to feel rooted and to belong It is a center of privacy a refuge from the world and at the same time the place where we interact with our family friends and acquaintances As such the home is an important factor in personal and social development particularly in childhood Because of the complex role of housing in human life residential environments are an important area of study in a wide variety of fields including anthropology architecture economics environmental design geography psychology and sociology The dwelling is the nucleus around which the discourse about residential environments is articulated but it is not its only component Residential environments also involve other elements such as the neighborhood neighbors and the larger urban community This multidisciplinary study of residential environments conveys the complex nature of people s experiences with thier residences neighborhoods and communities *Environmental Choice, Human Behavior, and Residential Satisfaction* William M. Michelson, 1977 *Handbook of Quality of Life Research* Robert W. Marans, Robert J. Stimson, Noah J. Webster, 2024-03-14 This erudite Handbook demonstrates how multiple approaches have been used to conceptualize measure and model the complex issue of quality of life QOL and individual well being emphasizing place and space as critical factors in a meaningful QOL experience among diverse populations including special attention given to older adults *The Meaning of Activities in the Dwelling and Residential Environment* Janine Meesters, 2009 The dwelling is a central setting in people s everyday life People use their dwelling and residential environment for a large variety of activities and purposes This book relates activities settings and meanings to improve the insight into people environment relations which is called a meaning structure approach *Handbook of Environmental Psychology and Quality of Life Research* Ghazlane Fleury-Bahi, Enric Pol, Oscar Navarro, 2016-08-12 This Handbook presents a broad overview of the current research carried out in environmental psychology which puts into perspective quality of life and relationships with living spaces and shows how this original analytical framework can be used to understand different environmental and societal issues Adopting an original approach this Handbook focuses on the links with other specialties in psychology especially social and health psychology together with other disciplines such as geography architecture sociology anthropology urbanism and engineering Faced with the problems of society which involve the quality of life of individuals and communities it is fundamental to consider the relationships an individual has with his different living spaces This issue of the links between quality of life and environment is becoming increasingly significant with at a local level problems resulting from different types of annoyances such as pollution and noise while at a global level there is the central question of climate change with its harmful consequences for

humans and the planet How can the impact on well being of environmental nuisances and threats for example natural risks pollution and noise be reduced How can the quality of life within daily living spaces home cities work environments be improved Why is it important to understand the psychological issues of our relationship with the global environment climatic warming ecological behaviours This Handbook is intended not only for students of various disciplines geography architecture psychology town planning etc but also for social decision makers and players who will find in it both theoretical and methodological perspectives so that psychological and environmental dimensions can be better taken into account in their working practices

Home Environments Irwin Altman, Carol M. Werner, 2013-06-29 The present volume in the series focuses on homes residences and dwellings Although many fields have had a long standing interest in different aspects of home environments the topic has recently come to the forefront in the interdisciplinary environment and behavior field Researchers and theorists from many disciplines have begun to meet regularly share ideas and perspectives and move the investigation of psychological social and behavioral aspects of home environments to the central arena of environment and behavior studies This volume representative though not comprehensive attempts to provide a sampling of contemporary perspectives on the study of home environments As in previous volumes the authors are drawn from a variety of disciplines including environmental design fields of architecture and planning and from the social science fields of psychology sociology anthropology and history This diversity of authors and perspectives makes salient the principle that the study of homes in relation to behavior requires the contributions of many disciplines Moreover the chapters in this volume reflect an array of research and theoretical viewpoints different scales of home environments e.g. objects and areas the home as a whole the home as embedded in neighborhood and communities etc design and policy issues and necessarily a comparative and cross cultural perspective Home environments are at the core of human life in most cultures and it is hoped that the contributions to this volume display the excitement potential and importance of research and theory on homes

Investigating Quality of Urban Life Robert W. Marans, Robert J. Stimson, 2011-08-31 The study of quality of urban life involves both an objective approach to analysis using spatially aggregated secondary data and a subjective approach using unit record survey data whereby people provide subjective evaluations of QOL domains This book provides a comprehensive overview of theoretical perspectives on QOUL and methodological approaches to research design to investigate QOUL and measure QOL dimensions It incorporates empirical investigations into QOUL in a range of cities across the world

The Oxford Handbook of Environmental and Conservation Psychology Susan D. Clayton, 2012-10-18 First handbook to integrate environmental psychology and conservation psychology

Human Behavior and Environment: Home environments Irwin Altman, 1976

Environment & Planning A, 2011 **Environment & Planning**, 2009 **Environmental Psychology** Robert Gifford, 2002 A comprehensive and authoritative overview of environmental psychology covering fundamental processes such as environmental perception and spatial cognition social environmental processes such as privacy and crowding setting
