Rethinking Decentralization In Developing Countries:

Rethinking Decentralization in Developing Countries Jennie Ilene Litvack, Junaid Ahmad, Richard Miller Bird, 1998-01-01 In an effort to reduce poverty and improve nutrition this Bank operation assisted the Indian program Operation Flood to develop the dairy industry in India This study examines the policy changes instituted to support the aid flow to the dairy sector and discusses the lessons learned and benefits realized through improved dairy production It also presents suggestions for improvement This program differs from other Bank efforts in that it focuses on a single commodity to alleviate poverty and raise living standards Rethinking Decentralization in Developing Countries Jennie Ilene Litvack, 2008 Rethinking Decentralization in Papua New Guinea Johann-Friedrich Ramm, 1993 *Public Sector Reforms in Developing Countries* Charles Conteh, Ahmed Shafiqul Huque, 2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in *Public Sector Reforms in Developing Countries* will enable public managers in developing countries cope in uncertain and turbulent environments as they seek optimal fits between their institutional goals and environmental contingencies **Decentralization and Development Partnership** Fumihiko Saito, 2012-12-06 Decentralization an essential pillar of institutional reform is of critical importance in developing countries particularly in regard to democratization effective development and good governance Uganda since 1986 and the start of decentralization measures under Yoweri Museveni and the National Resistance Movement has represented one of the most serious commitments in Sub Saharan Africa With the benefit of extensive fieldwork Fumihiko Saito demonstrates how conflict resolution information dissemination and encouragement of the many and varied stakeholders to form partnerships are critical to successfully bringing services closer to the people *Decentralization and Development Partnerships Lessons from Uganda* goes beyond theory to compare academic assumptions to the reality of decentralization implementation in modern Uganda Although the process is by no means free of difficulties Saito concludes that a win win outcome is a real possibility **Decentralizing Governance** G. Shabbir Cheema, Dennis A. Rondinelli, 2007-08-01 The trend toward greater decentralization of governance activities now accepted as commonplace in the West has become a worldwide movement This

international development largely a product of globalization and democratization is clearly one of the key factors reshaping economic political and social conditions throughout the world Rather than the top down centralized decisionmaking that characterized communist economies and Third World dictatorships in the twentieth century today s world demands flexibility adaptability and the autonomy to bring those qualities to bear In this thought provoking book the first in a new series on Innovations in Governance experts in government and public management trace the evolution and performance of decentralization concepts from the transfer of authority within government to the sharing of power authority and responsibilities among broader governance institutions This movement is not limited to national government it also affects subnational governments NGOs private corporations and even civil associations The contributors assess the emerging concepts of decentralization e g devolution empowerment capacity building and democratic governance They detail the factors driving the movement including political changes such as the fall of the Iron Curtain and the ascendance of democracy economic factors such as globalization and outsourcing and technological advances e g increased information technology and electronic commerce Their analysis covers many different contexts and regions For example William Ascher of Claremont McKenna College chronicles how decentralization concepts are playing out in natural resources policy while Kadmeil Wekwete United Nations outlines the specific challenges to decentralizing governance in sub Saharan Africa In each case contributors explore the objectives of a decentralizing strategy as well as the benefits and difficulties that will likely result

Development Economics and Social Justice John Thoburn, 2017-11-28 Professor Ian Livingstone is one of a small group of British development economists who have achieved international renown and recognition The objective of this book is to pay tribute to his life s work particularly those aspects which related to key but challenging development issues These issues include at a broad level the understanding of the economic forces determining the development of low income economies more detailed micro work on agricultural development irrigation in particular decentralisation and local government finance small scale enterprises and large scale manufacturing development Themes running through his work relate to his over riding concern for rigour and for socio economic justice Ian Livingstone consistently used the traditional tools of economic analysis as a means to increase understanding of development issues in a way which was itself just as radical as the contributions of political scientists and sociologists This volume has been produced with similar aims

Environmental Law in Development N. Niessen, 2006-01-01 an important addition to the small but growing published literature on the development of environmental law in developing countries It will be of interest to academics and those involved in law development in Indonesia and the other developing countries Jennifer Mohamed Katerere Journal of Environmental Law This book asks whether environmental law and policy in developed countries can be successfully transferred to developing countries It questions whether developing countries are indeed ready and able to implement new ideas from the developed world such as the integration of environmental law and use of market oriented instruments The

authors draw insights from the case of Indonesia where they have experience of drafting environmental legislation and which is itself in the early stages of development Through these insights they seek to understand why environmental law that has been well developed in theory can in practice be difficult to monitor and adequately enforce Indeed a further question central to the book is why developing environmental law does not necessarily result in an efficient environmental policy Taking a comparative perspective and using a multi faceted methodology that draws on constitutional and administrative law human rights law criminal and liability law and international law as well as law and economics the authors conclude with an outline of some of the lessons that can be learnt by other jurisdictions seeking to develop environmental law Lawyers environmental engineers and social scientists involved in environmental law and policy in developing countries will find much to interest them in this book as will those concerned with development studies or with a particular interest in the case of Indonesia

Decentralization and the Development To-bin Im,2010 *Geographica helvetica* ,2001 Regional Development Dialogue ,2007 An international journal focusing on third world development problems **Making Democratic Decentralization Work in South Asia** Durga P Chhetri,Prabhat Kumar Datta,R. Lalitha S. Fernando,Aly Shameem,2025-09-26 This edited volume examines the impact of decentralized governance in South Asia focusing on historical and contemporary efforts in rural and urban areas Written with the ultimate goal of developing an understanding of how local governance contributes to democracy development and citizen empowerment the book highlights the importance of democratic decentralization political will and administrative support Including contributions by a collection of international academic experts and practitioners the book covers themes like conceptual issues historical perspectives fiscal decentralization grassroots democracy engendering local governance and the influence of information technology Addressing challenges sharing experiences and suggesting practical ways to improve decentralized governance the volume will be of interest to researchers and students of public administration governance South Asian politics and development as well as professionals working in related areas *Asien, Afrika, Lateinamerika* ,2002 *Public Finance in Developing and Transitional Countries* Richard Miller Bird,2003 A collection of most of the papers and comments presented at the conference held in honor of Richard Bird in the spring of 2001 Section I Intergovernmental fiscal relations Section II Tax evasion tax administration and the role of government Section III Fiscal policy **A Decade of Decentralisation and Local Government Reform in Ghana** ,2000 **IDS Bulletin** ,2007 *Fiscal Decentralization to Rural Governments in India* Geeta Sethi,2004 With special references to Karnataka and Kerala two states of India **Bridging the Gap Between Theory and Practice in Democracy Strengthening** Adam John Behrendt,2004 **Rebuilding Effective Government** ,2002 This publication seeks to contribute to the policy debate on decentralisation and the role of local governments in promoting human development by considering the situation in the countries of central and eastern Europe CEE and the Commonwealth of Independent States CIS It considers the key elements required to achieve responsible local government

conduct based on the dynamic and often contradictory combination of strong central policies high quality local leadership and the mobilisation of civil and non governmental organisations at the local level World Bank Research Program World Bank,1999
